

BORDERKEEP

Defend your settlement from rampaging monsters

WRITTEN BY LLOYD KRASNER

BORDERKEEP

INTRODUCTION

Multiplayer card game or solo rules.

Each player controls a small town in a fantasy setting. Every turn players build structures and hire heroes to defend their town. Some cards are used to send monsters and disasters to destroy your opponent's towns.

THE DECK

The deck has 75 cards. These will have to be constructed before play is possible.

SETUP

Six sided dice (D6) are needed.

Roll high on 1D6 to determine turn order.

Players start with a hand of 7 cards, 30 gold, 1 guard token, a castle with 4 walls, and an income = 3 gold.

Gold can be used to substitute for any other commodity on a 1 to 1 basis.

OBJECTIVE

Have the most defenders and structures at the end of the game. Each defender and structure is worth 1 victory point.

The game ends when the last card is drawn from the deck.

In a multiplayer game, the game ends if all but one player's town is destroyed.

TURN SEQUENCE

Players take turns. Each turn has 5 phases:

1. Draw Phase
2. Upkeep Phase
3. Production Phase
4. Build Phase
5. Attack Phase
6. Heal Phase

THE GOLDEN RULE

In all situations, Gold can be used to substitute for any other commodity on a 1 to 1 basis. For example: you may have to pay an upkeep of 1 magic. You can substitute 1 gold instead.

1. DRAW PHASE

Draw one card. Max hand size = 7. Discard excess cards. Pay 7 Magic to draw an extra card. If you bought the card, discard it if it is a Disaster or Attack card.

2. UPKEEP PHASE

All defenders have an upkeep = 1 Food or Weapon. Heroes have an additional upkeep of 1 Magic. Some buildings have an upkeep in their card description. If the upkeep is not paid the card is discarded.

3. PRODUCTION PHASE

Collect revenue from all structures and defenders that produce revenue. Revenue comes in different forms: Gold, food, magic, etc. Keep track of each form of revenue.

4. BUILD PHASE

Put structures and defenders into play by paying their cost. Defenders must be paid for in Food and/or Weapons. Magical defenders can also be paid for with Magic. Structures must be paid for in Wood or Stone. Magical structures can also be paid for with Magic. Artifacts must be paid for in Magic.

5. ATTACK PHASE

Players cannot play attack cards until turn 3. Attack cards include Disasters & Monsters.

Play one Attack card on the opponent to your left. If you have more than one attack card, you may play the additional card on the next player, and so on.

Resolve disasters according to the card text.

Resolution of battles with monsters may take several segments. The monster and all defenders attack once during the segment.

Attack order is determined by each card's initiative. Initiative = 10 attacks before Init = 9, and so on.

All cards of the same initiative level attack simultaneously.

An attacking card rolls a number of six sided dice equal to its Attack Dice (AD). Each roll of 1 causes the other side to lose 1 hit. The attacker decides where hits are inflicted. Each card has a number of hits. If this hit total is reduced to 0 the unit is destroyed.

The monster will keep attacking until destroyed.

If the monster destroys all the defenders, the monster is discarded and the defender must discard 1D6 structures.

If there are no structures left, then castle walls are destroyed.

If all castle walls are destroyed, the player is eliminated.

Some units have Spells. Roll on the Spell Table at the beginning of each segment to see what spell the unit can cast.

6. HEAL PHASE

All surviving defenders recover all lost hits. Walls may be rebuilt for 3 Stone or Wood each. Defender & Structure cards destroyed this turn may be put back in your hand for 2 Magic each.

Summoned minions are destroyed.

Destroyed guard tokens are returned to play for free.

THE GUARD TOKEN

Each player starts the game with one. The guard is a non-hero defender. The guard has initiative = 2, Attack Dice = 2, and Hits = 2. The guard has no upkeep.

SOLO RULES

Do not draw extra cards. You are the target of all attack cards. Resolve attack cards the turn they are drawn.

You win if you get through the deck.
