## 54mm MINIATURES

It requires only a glance at one of the superbly designed figures in the Slave Market series to be instantly aware of the remarkable talent of the designer, Cliff Sanderson. His expertise is everywhere apparent, both in costume detail and in the manner in which he sculpts the tiny features of these miniatures. Many otherwise clever designers ensure that their models have the requisite number of eyes, a nose and a mouth and more or less leave it at that. The features of a Sanderson 54mm. model, however, are those of a real individual.

# LASSET MODELS

True craftsmen in the world of model soldier manufacture can be numbered on the fingers of one hand and of these the firm of Greenwood and Ball is fortunate to have John Tassell, whose Lasset models are in the forefront of the very many 54 mm. types now on the market. These superbly produced figurines are of a white metal which lends itself most admirably to the casting of the figures, whose lavish and minute detail has to be seen to be believed. All have been created only after the most painstaking and intensive research, and their authenticity and historical accuracy are as near perfect as scholarship will permit.

## UNIFORMS OF THE SEVEN YEARS WAR

ILLUSTRATED  
IN  
BLACK AND WHITE  
AND  
COLOUR

NO. 1 PRUSSIA  
NO. 2 AUSTRIA

Published by  
Greenwood and Ball

A series covering  
the uniforms of the combatant nations of the  
Seven Years War.  
It is designed to provide sufficient information  
on the dress, standards and structure of the  
armies to enable the collector to finish a  
figure in greater detail and the wargamer to  
form accurately painted and organised  
armies.

Many books are readily available which are  
fully descriptive of the causes, course and  
results of the Seven Years War. We have,  
therefore, not attempted to include material  
of a historical nature, either military or  
political, other than a very brief description  
of the theatre of war and some of the major  
battles fought.
