Updated October 16, 2001

Shared Plots

The following plots have been passive for a while:

- ❖ The party's ship was attacked by a Vodacce ship **Domani**. The **Sea Dogs** impounded the ship, but the captain and a fate witch escaped. Who are they and why did they attack?
- ❖ **Henry Clayborne** attempted to assassinate **Admiral Cesar Marceau** in **Heilgrund Castle**. **Paolo and Wilhelm** foiled this attempt and **Heilgrund** questioned him. He says that **Thomas Mandrake** hired him. **Blaise** tracked down info on Mandrake while in **Carleon**. Mandrake is known as a patriot that bought his title after success as a privateer in the war with Castille. He hates Montaignes and is rumored to have bandits working for him. He rules over **Bedebrane** and is rumored to be a Glamour sorcerer.
- ❖ When escaping Dark's Pandemonium Carnival, **Sebastian du Lac** brought out **Lena Reisen** (griffin rider), **Isabella** (knife thrower), **Domino** (fate witch), and **Hanna** (Innish fist fighter) with him and they left via Porte. Lena is apparently **Ritter Josef Reisen's** heir, but she's been missing for 7 years and the Ritter died 5 years ago. When this group left, Sebastian said "Looks like you are tied up in this too.", "**Bella Dona** must have activated this second group when we didn't show up.", and "We need a head start on them."

The following plots are potential but have not shown anything yet:

- ❖ The party killed a whole bunch of **Caligari family** members led by **Salvator Calagari** while in a swamp in Vodacce. Will the Caligari family be able to trace the actions to them? Blaise gave Salvator's sword to **Eisenfurst Heilgrund**.
- ❖ There is something going on in **Insel** that made the **Nibelung** change their behavior and open up a shop. There seems to be more raw Dracheneisen than normal flowing in that town.
- ❖ The party has seen a one-eyed Vesten at a ritual run by **Jarmir Gutmunssen** on an island far out at sea.
- ❖ The party saw the ship **Morganstern** leaving port in **Carleon**. Captained by **Albrecht Waldis**. Comes to port twice a year or so. Had a figurehead of a man with a shell shaped shield and a trident. The shield resembled the one on **Ritter Josef Reisen's** shield. Apparently **Lena Reisen** was the captain of that ship in the past.
- ❖ Why are so many ships assigned to guard **Isle de Bete**?
- ❖ Just about everyone ran into **Bella Dona**, a fate witch working at **Dark's Pandemonium Carnival**. Who is she really? **Joseph** found her doing research while traveling.
- ❖ **The Kire** interacted with the party some after they rescued him from a Montaigne prison then he went on his own way.
- ❖ **Jacques Renault** interacted with the party some after they rescued him from a Montaigne prison then he went on his own way.

Floriana Maria Esperanza de Corazon

The following plots are currently active:

- ❖ Something is going on with Floriana's family. While in **Frieberg** she got a letter from her **father** asking her to promise to visit next time and to ignore the inquisition. Shortly thereafter her sister **Rosili** wrote with congrats about Jorge, but saying that Dad wasn't the same after his devastating loss. Floriana wrote back demanding details. Rosili's next letter arrived while in **Gregorstadt**. The family sword was stolen and the maid **Isola** disappeared at the same time. Floriana wrote back asking for more details.
- ❖ Floriana is being courted by **Jorge Mercado**. Jorge is a young officer in the Castillian army that Floriana met in **San Augustin**. She challenged him on the practice field then went on to dinner. She did this to arrange help

for the Vesten skjaren **Jarmir Gutmansson**. She decided not to seduce him and instead left a love note with perfume, a flower, her address, and a promise to be faithful to him. While she was in Vodacce, Jorge sent a letter saying that he was alive only because the fog bank victory for the Castillian fleet allowed support for San Augustin, which has fallen but has now been reclaimed with him as military leader. He also said he loved her. She wrote back propping up his resolve to fight the Montaigne. While in **Freiberg**, she wrote again to ask after **Blaise's** brother **Phillipe**. Her father also wrote her at this time saying that he was contacted by Jorge and that he approves (but not to tell Jorge how much :-). While in **Gregorstadt**, Jorge wrote asking her to come to San Augustin and sent his service ring as a token. She wrote back thanking him, telling him to fight hard, and she sent her communion cross to him. While in **Carleon**, he wrote saying that he contacted her father and got his approval to court her. He also sent a small portrait. Floriana had **Rupert** do a drawing of her and sent it.

- ❖ Floriana had a relationship with **David Fidel Lorenzo** in her back-story. They were young and in love, which would have been fine if he were not a priest. They got caught and the inquisition ran Floriana out of the country and whisked David off. She rediscovered him in **Frieberg** at the Vatican church there. David thought she came to rescue him (which she never denied) and he in turn rescued her when inquisition troops recognized her and tried to take her. He had changed from a handsome youth to a slightly pudgy and balding man. She helped him escape to **Carleon** and told him to make a new life without her. **Paolo** set David up with **Kevin Darby** of the Knights of the Rose and Cross. Kevin got David a home and then arranged for him to train in swordsmanship. David was proud when he next talked to Floriana (as she returned from **Isle de Bete**), but she brushed him off. When in Vodacce she got a letter from him saying he was in the swordsman's guild now and "hope you're proud of me". She next met him in Carleon where he was the bodyguard for **Miguel Olivares**. He showed up with flowers and dressed up. She called him a "friend" and spoke of her engagement to **Jorge Mercado**. David left crushed.
- ❖ *Unanswered letters:* One to **Rosili** (her sister).

The following plots have been passive for a while:

- ❖ Floriana has been "marked" by **Fleishwolf** when her soul was captured in a wooden statue and then released. This mark allows her to sense supernatural creatures, but it also makes fate witches very nervous around her. **Anna** saw Floriana and said she was "marked by dark forces" and "untrustworthy". A fate witch in Vodacce ran screaming from the room after seeing Floriana. We have not yet determined if there are any other effects of the "mark".
- ❖ Floriana has had an interesting relationship with **Roderick Tappert**. She beat him in a duel in **Practig**. She met him again at **Heilgrund Castle** where she dueled him again. He then made up to her with a note and scarf. She wore the scarf to dinner and he wore a matching one. She moved on and in their next contact on her next visit to Heilgrund Castle she talked of Jorge all the time. Roderick returned the scarf he wore to dinner and Floriana realized it was **Blaise** that set them up.
- ❖ In Floriana's backstory, she wounded the inquisition bishop **Miguel Domingo** with a scar above his left eye. He was trying to arrest her for seducing a priest. This is the action that caused her to flee from Castille and live in exile. Miguel has been looking for her and she's on the inquisition's "wanted" list.

The following plots are potential but have not shown anything yet:

- ❖ **Bella Dona** told Floriana's fortune "You will wield the holy fire and the righteous will fall."
- ❖ Floriana slept with **Lars Ostrom** (one of the 3 captains of the **River Mist**).
- ❖ Met **Sophia de la Cruz** at **Heilgrund Castle** who was there to gather Eisen help for Castille. Floriana said she wanted to help when she got a chance.

Blaise Harcorte LeGrande

The following plots are currently active:

- ❖ Blaise has been working on setting up an Eisen food craze in **Charouse**. There is a big event planned in the "Spring" (no date specified yet). To this end he has promised **Anna (Dominique du Montaigne's** maid) an *unspecified favor* in return for her promoting some Eisen foods in the court (she also asked for a Vodacce food craze next time). He has also set up a business relationship with **Gretta Jannsen** (a Vendel League merchant) to provide transport in exchange for a share of the profits. She recently sent a letter saying she was overextended and Blaise replied with "trust me". He has arranged for Eisen chef **Emile Metzger** to come and cook for him. He arranged for Eisen ale from **Gregorstadt** via a business deal with **Baudric Mallory**. He arranged for swampberry wine from **Insel** via a deal with **Helmut Randolph Schappert**.

- ❖ Blaise is currently playing chess by mail with **Giovanni Villanova**. Villanova made the first move in a letter received in **Gregorstadt**. Blaise sent his second one from **Insel**. Villanova made his next move in a letter received while in **Carleon**. Blaise has not sent his next move yet.
- ❖ Blaise received a letter from **Celeste** saying that **Captain Charles du Chevalier** arrived at the **Silver Dragon** with **Pierre LaMut** claiming to have an eye-witness account of Blaise being at **Isle de Bete**. They want to arrest him on the charge of trespassing. Since being there without **Le Emperor**'s permission garners the death penalty, this could be serious if proven. Celeste downplayed the various decorations in the Silver Dragon (such as Rupert's drawings). Perhaps the Silver Dragon is being watched now and it may not be safe.
- ❖ *Unanswered letters*: One due for **Giovanni Villanova** (chess move).

The following plots have been passive for a while:

- ❖ **Lucius Malvek** is a deranged bastard son of a Montaigne noble with aspirations of causing the downfall of the nobility. He is very knowledgeable about the **Syrneth**. His plot on **Isle de Bete** was crushed by the party, which was bad, but his reputation was destroyed by Blaise when he spread word on Isle de Bete of Lucius killing his master. Later Blaise spread similar bad tidings in the courts of **Charouse**. Blaise also warned his family, which was good since a letter came saying the Lucius attacked young **Christof**, but **Alexandre** ran him off. A letter from **Anna** (while in Vodacce) said that Lucius was seen in the palace and was shot at by a Musketeer. **Joseph Thornton** wrote a short while later saying that Lucius went into hiding. While in **Insel** a letter was received from Lucius (it wasn't blooded) saying that he too could play the game of discrediting and that Blaise better watch out. Blaise warned Celeste to be careful. In the meantime, **Rupert** has the Explorers hunting for Lucius as well.
- ❖ Blaise gave the **Nibelung** a small vial of *Drachen Blood* through **Herman Goebles** at the office in **Insel**. He would not tell of the source saying he promised after saving a life. He did manage to arrange a *Dracheneisen* knife for **Emile Metzger** (payment pending if the blood isn't worth enough) and laid the groundwork for **Wilhelm** to get something made as well.
- ❖ **Gretta Jannsen**. Blaise may have more than a business relationship with her. He took her to dinner and then spent the night at her place in **Insel**.
- ❖ **Celeste** redeemed the 19,000g note from a Montaigne bank by using a young Navy man as a patsy. The note was taken from the Montaigne prison.
- ❖ **Romero Basqualles** has a financial deal with Blaise to sell food from the rancho (via a trip through Eisen to avoid the war front).
- ❖ Blaise still has a *Syrneth Compass* in a porte "pocket". The other one is presumably held by a mysterious person several people believe to be **Die Kruetzritter** (or they would if they knew who the DK are :-). That compass was stolen from **Rupert** while in the machine in Vodacce.

The following plots are potential but have not shown anything yet:

- ❖ Blaise also goes by the name **Rafael Segreto**.
- ❖ So what is in that jar of "sparklies" that Blaise collected on the night of the new year at **Vernor's Rest**? It looks like a jar of air now.
- ❖ The **Silver Dragon** used to function as a gentleman's club, but the club aspect has gone dormant since Blaise took up running it. Should he restart it? He has the membership roles. Was there anything special about the club?
- ❖ Blaise has **Giotto D'Arche** as an "informant" at the **University of Dionna** in Vodacce. Giotto is an expert in sorcery and was allowed to study **Wilhelm**. Giotto may call on Blaise for something.
- ❖ Blaise has made several attempts to "kiss up to" **Lady Dominique du Montaigne** and her maid **Anna**. He wants to be on the right side. This may or may not turn into something.
- ❖ Blaise asked **General Montegue** to find a job for **Francios d'Ville** while in Ussura.
- ❖ Blaise threw up when he looked into the mirror at **Dark's Pandemonium Circus**. What did he see?
- ❖ Blaise had some problems with a fate witch in the past. *[Details?]*

Paolo Ettore Leone

The following plots are currently active:

- ❖ The 7th Falcon was inherited by Paolo in bad shape and left in dry dock at **Vraise** in Montaigne. He was adventuring to raise money to repair it and pay back dock fees. **Gretta Janssen** arranged to pay the dock fees for the 7th Falcon and covered repair expenses. She did this with a loan, and the moneylender put a Vendel merchant on the crew.
- ❖ Paolo was promised (by **Dietrich Proust** via a letter received in **Gregorstadt**) financial help to get the ship running if he could recruit 3 sponsors for the Rose and Cross. Paolo wrote to **Eisenfurst Heilgrund** (politely refused), **General Montegue** (refused but signed by **Major Stanislaw Perrot**), **Admiral Marceau** (accepted! Need to come to **Vraise** to close the deal), and **Romero Basqualles** (accepted! But assigned to chief advisor **Rocco** the donkey).
- ❖ The Vesten pirate **Bodvar Orebjorn** killed Paolo's father. Paolo was able to take him down and deliver him to the Montaigne. Bodvar escaped prison in a blast that destroyed a portion of it and is now at large. He has been preying on Avalon ships between Montaigne and Avalon. When in **Heilgrund Castle**, talked with **Findur Herbrand** (a Vendel League member) and was asked to help take down the pirate... the reward being more than enough to pay off the ship fees. When in **Carleon** Paolo made a ***VOW*** "I vow that Bodvar will receive the true justice he deserves for his crimes at sea!"
- ❖ Paolo has an interesting relationship with **Simone**. Simone has been living with **Blaise's** family as a "cousin" ever since she escaped from Vodacce. She escaped on the 7th Falcon with the help of Paolo and his father. She has both Sorte and Porte sorceries. She is believed to be **Bella Dona's** daughter. She has been "protected" from relationships by stray strands on her that she says are a curse placed on her by her mother. Paolo was able to pass through the strands without harm.
- ❖ *Unanswered letters:* None.

The following plots have been passive for a while:

- ❖ **Francisco Scaramanga** is a personal enemy. Scaramanga was trained by Paolo's father and used knowledge of his father and of the Knights to trick Paolo into assisting in the murder of **Camilla di Banco** (wife of **Vito de Banco**, ranking member of **Giovanni Villanova's** organization). Camilla was in a Rose and Cross safe house as she was defecting from Villanova. Scaramanga left a note saying that **Arturo** was "weak and he suffered for it" and added "welcome to the path to hell". He signed it "The Tower". Paolo alerts the Knights everywhere he has gone to look for Scaramanga and even posted pictures in **Insel**. So far no word. **Dietrich Proust** revealed that Scaramanga had been missing for two years and was presumed dead after a failed mission, but apparently betrayed the mission and went into hiding.
- ❖ **Miguel Olivares** was an astronomer and map maker in **San Cristobal**. He got into trouble with the inquisition, so Paolo arranged for him to escape Castille via the Knights. Miguel ended up in **Carleon** and **Dietrich** wrote a letter to Paolo to let him know it was successful. When Paolo arrived in Carleon he found Miguel happy and working doing maps for the explorers at the **Lion and Compass Inn** with **David Fidel Lorenzo** as a bodyguard.
- ❖ **David Fidel Lorenzo** was one of **Floriana's** lovers. She dumped him in **Carleon**, so Paolo helped him get back on his feet by hooking him up with **Kevin Darby** (a Knight). David abandoned his priesthood and took up swordsmanship. He is now a bodyguard to **Miguel Olivares**.
- ❖ Early on Paolo formed an unspoken bond with **Anna (Dominique du Montaigne's** maid). She contacted him several times on business, but he hoped for something more. While recently in **Carleon**, he wrote her a letter saying he wanted to meet her for dinner when he was next in **Charouse** and included a pressed red rose.
- ❖ **Dad's** last words were "Tell Dietrich Proust in Frieberg that chess piece face lives. The tower falls." Paolo discovered from **Dietrich Proust** that The Tower was the codename for **Francisco Scaramanga**, who has betrayed the knights. Dietrich took the news hard and refused to reveal who Chess Piece Face was at this time. The news of Scaramanga's betrayal was late as it was discovered several months earlier.
- ❖ The Rose and Cross asked Paolo to watch **Wilhelm** and **Floriana** for signs of sorcery and darkness. He told them of the **Fleishwolf** incident.
- ❖ Paolo still has to work out the crew for the 7th Falcon. Choices so far are: *[details? Some from Sea Dog docks in Carleon]*

The following plots are potential but have not shown anything yet:

- ❖ Paolo's trainer was **Rex Sutcliff**, an Avalon. Paolo was his Tyro. Rex was lost at sea in a storm after Paolo's father's death. Paolo has spread word that's he's missing.
- ❖ Paolo does not know who his mother is.
- ❖ Paolo is "saving himself" for his true love and no other.

- ❖ Paolo spent time helping **Romero Basqualles** and formed a relationship with him.

Wilhelm Gregor Mallory

The following plots are currently active:

- ❖ The ghost of **Salvator Caligari** has been haunting Wilhelm and picking times to manifest and attack him. Salvator was killed in cold blood by Wilhelm in a **Vodacce** swamp after Salvator led a group that killed some Explorers. The ghost first appeared in an inn in **Frieberg** pretending to be a steward bringing Salvator's head on a platter. The ghost was defeated with fire. Wilhelm wrote to **Giotto D'Arche** to get help and was told that ghosts can attach to people and can take physical form once they build up energy. He also consulted with **Eisenfurst Heilgrund** and read up in his private library. The second appearance was in a swamp in northern Eisen, where the ghost enlisted the aid of some Sirens to attack the party's boat. This time they hacked at the ghost with weapons and holy water was used. After this Wilhelm wrote to **Maurice de Aubrey**, the famous Montaigne ghost hunter and requested a chance to visit and consult. He also wrote to Giotto and Heilgrund again to describe this second encounter. Giotto wrote back saying that it was very unusual for a ghost to align itself with others. Maurice wrote back saying that Wilhelm was welcome to visit him at his estate near Charouse. The third appearance was in a **Sidhe** circus. This time it made a deal with a Sidhe to get at Wilhelm. It was sent away by the same Sidhe. Wilhelm wrote to **Constanzo** (author of the Bestiary) explaining the ghost situation and gargoyle story and asking to meet when he comes to **San Cristobal**.
- ❖ Wilhelm has been invited to visit **Maurice de Aubrey** (the ghost hunter) at his estate near Charouse.
- ❖ There is something going on in **Insel** that made the **Nibelung** change their behavior and open up a shop. There seems to be more raw Dracheneisen than normal flowing in that town. Wilhelm wrote to **Josef Ziegler** asking for info on Dracheneisen flow and for him to contact **Eisenfurst Sieger**. He also wrote (in High Eisen) to **Erich Reinhart** to have him get info on Dracheneisen flow and to ask **Eisenfurst Wische**. He also wrote to **Baudric Mallory** about flow of Dracheneisen, about the **Morganstern**, and about **Albrecht Waldis'** relationship to **Burk Waldis**. He also wrote to Geoffrey Roberts about Dracheneisen flow, about the Morganstern, and about Albrecht Waldis' relationship to Burk Waldis.
- ❖ Wilhelm wrote to **Lietenant Kole** in **Insel** to ask about the ship **Domani**.
- ❖ *Unanswered letters:* **Joseph Zeigler**, **Erich Reinhart**, **Baudric Mallory**, **Geoffrey Roberts**, **Kole** (lieutenant in Insel), **Constanzo** (author of bestiary).

The following plots have been passive for a while:

- ❖ Wilhelm acquired 3 units of raw Dracheneisen from the Drachen **Gloaming**. He made contact with the **Nibelung** office in Insel to inquire about getting it forged but never got to actual discussions. The Nibelung appeared to know of him. He did register his Dracheneisen razor.
- ❖ The Vesten skjaren **Jarmir Gutmunssen** says he is destined to be met by Wilhelm one more time. The first time was on an island at sea where Jarmir was performing a rite over a one-eyed man. The second time was in **San Augustin**, where Jarmir needed the party's help to recover some Vesten runes.
- ❖ Wilhelm has been “marked” by **Fleishwolf** when his soul was captured in a wooden statue and then released. This mark allows him to sense supernatural creatures, but it also makes fate witches very nervous around him. **Anna** saw Wilhelm and said he was “marked by dark forces” and “untrustworthy”. **Giotto D'Arche** at **Diona University** studied Wilhelm and said he had a very strong strand pulling him north (his wife? Fleishwolf? **Jarmir Gutmunssen?**). They left before the study could progress any further.
- ❖ Wilhelm made a deal with the brook in **Dark's Pandemonium Circus** to carry her water to the last of the Drachen. The water is encased in a dolphin-shaped glass stein (that appears close to unbreakable).
- ❖ Wilhelm has a long relationship with **Erich Reinhart**. They were buddies when young. *[Need more of the story here]* Erich reappeared in **Gregorstadt** as a Drachenjeager with **Hildgegarde Geduld** as his apprentice. Erich was being used to slay the Drachen **Gloaming**, but discovered his role to serve the Drachen and both he and Wilhelm helped save the Drachen's life. They were able to witness the Drachen's egg. Erich has wandered off to find his way.
- ❖ **Kurt Geduld** was discovered to be of a Zerstorung bloodline, but has not shown any signs of being a sorcerer. He's also a pretty nice guy. He betrayed his family to save people. Only **Baudric Mallory** was told of his bloodline and is watching over Kurt. Prior to this discovery Kurt was chasing **Ursula Mallory**. He has since been told to break off that relationship by Baudric (which he did do).
- ❖ **Gunter Geduld** also survived and is being taken care of by his brother **Kurt** and by **Baudric Mallory**.

- ❖ **Hildegard Geduld** was **Erich Reinhart's** apprentice and learned the ways of the Drachenjeager. She also has Zerstörung sorcery. She was knocked into the river rapids during the battle with the Drachen. She is missing along with the Dracheneisen axe "Skinner" and the Dracheneisen telescope.
- ❖ **Ursula Mallory** has moved out of home and is running a vet's office. She was dating **Kurt Geduld**, but he broke up with her. **Joseph Ziegler** has been interested in her for some time and has begun taking up more of her time.

The following plots are potential but have not shown anything yet:

- ❖ While at the **Gelingen Academy** in Insel, Wilhelm consigned four troublemakers to **Gregorstadt**. They are **Kunrad Emser, Burl Waldis, Judith Aberlin, and Michel Ludolf**. He alerted **Joseph Ziegler** to their coming via letter. They arrived and were put to work. They managed to help with a small gargoyle encounter.
- ❖ While at **Vernor's Rest** on the new year, **Ursula Mallory** walked home with the "sparklies" on her. Legend says that these bring a year of love and luck.
- ❖ Wilhelm is married to **Astrid Mallory**, a Vesten. He has children. *[More details?]* **Jarmir**
- ❖ While in **Dark's Circus**, saw an image of **Baudric** talking with **Lena Reisen** in a Posen guard uniform. What was this about?
- ❖ The **Gelingen Academy** has some odd history. It is currently chaired by **Albrecht Tauler**. **Geoffrey Roberts** is a teacher there. Wilhelm's teacher was **Sir Lukas Nithardt**, but he died in a swamp expedition. Wilhelm had the chance to speak at the Academy when last in Insel.
- ❖ Wilhelm is owed a favor by **Elena Reyher** in **Friberg** for bringing back the last belongings of her son, an Explorer shield man killed by a trap in the Vodacce swamp.
- ❖ Has expressed interest in **Die Kreuzritter**.
- ❖ Was the town protector during the crisis in **Gregostadt**.

Rupert Sminge

The following plots are currently active:

- ❖ Rupert's father, **Gordon Sminge**, died while on an Explorer's mission three years before the start of the campaign. The society returned his body with no signs of what caused his death. They would not reveal anything of what happened. Rupert encountered a strange man in a Vodacce swamp that hurt him badly with a knife that did not leave any marks. This got Rupert to thinking and he started asking questions when next at the society HQ in **Carleon**. With his new rank, and the help of a clever researcher **Martin "Bravo" Pereda**, Rupert was able to uncover the trip reports of his father's two partners **Henri Farel** (a scholar) and **Reynaldo Delgado** (shield man). These revealed that they were on a mission to **Tyra Rax** along with a number of odd details that didn't add up. Martin found out that Henri retired to his estate in northern Montaigne and that Reynaldo is currently living in Castille near **San Cristobal**. The idea has been discussed that the Explorers might fund a properly planned mission to Tyra Rax... and that this funding might be used to pay off debts on the 7th Falcon.
- ❖ *Unanswered letters:* None.

The following plots have been passive for a while:

- ❖ Rupert has had an odd track record with the Explorers. He joined shortly after his father's death, becoming a *Trade Sea* member, in hopes of learning more and ended up with little interesting work (mostly research). He set out on his own and hooked up with the party. This got him connected to **Reginald Coleson** and his sponsor **Eisenfurst Heilgrund**, from which Rupert learned quite a bit and he was able to pass the first exams, becoming a *Frothing Sea* member, with **Madeline du Bisset** in **Friberg**. His first mission was to deliver a box to **Carleon** (which he did). He learned a bunch more while on **Isle de Bete**, particularly from **Lucius Malvek's** journal... which included many secrets of the Syneth! Rupert then had a hot tempered run in with Madeline du Bisset while in **Diona** Vodacce. He got some serious hands on experience with Reggie while at a machine in a Vodacce swamp. When in Carleon he was promoted to *La Boca Sea* by Headmaster **Vincent Bernvadore** pretty much as self defense since Rupert obviously knew too much. Rupert turned in Lucius' journal.
- ❖ Rupert found an Avalon sword named Last Laugh in the Drachen nest. It is likely a MacEarchen blade. What is it and why was it there?
- ❖ Rupert found a piece of amber (with a flower inside), a lock of hair (smells of flowers), and an oath written on paper in the Drachen nest. What are they and why were they there?

- ❖ Rupert got a book in Cymric and an artifact from **Archibald Hughes** right before he was killed in **Insel**. **Jonathan Smythe** taught Rupert some Cymric before he died on a ship. What are they?
- ❖ Rupert had a short fling with **Monique Bouvier** (age 17) while in **Heilgrund Castle** the first time. **Blaise** arranged flowers and champagne for her. She called him "Rupey". Blaise got Rupert to do a drawing for her, which he arranged to have sent in a nice frame with a scarf from Castille. Monique sent her thanks. Rupert wrote back a nice letter from **Friberg**, and Blaise arranged for a lace kerchief to be added. Monique wrote back sending her love and telling Rupert to call on her in Charouse. Rupert wrote back when in **Insel** (no content was ever defined), and this time Blaise didn't get the opportunity to add something.
- ❖ **Pierre LaMut** is the son of a man that went bankrupt financing **Gordon Sminge's** explorations. Gordon was a great explorer, but bad with turning a profit. Pierre tracked down Rupert with the intent of getting the money back, but the party beat him up at the **Silver Dragon** and gave him to a Montaigne navy press gang. Pierre turned up working on a supply boat on **Isle de Bete**, where he got to see Rupert and **Blaise**. He was recently rumored to be in **Charouse** and associating with **Captain Charles de Chevalier**.
- ❖ Rupert apparently has a semi-imaginary Sidhe friend named **Jack** from his childhood. He appeared while at **Dark's Pandemonium Circus**.
- ❖ Rupert got five acorns from the Rowen tree in **Dark's Pandemonium Carnival**. He made a deal to "Put acorns in places worthy of them where they may flourish". He needs to place them.

The following plots are potential but have not shown anything yet:

- ❖ **Martin "Bravo" Pereda** wants to work with Rupert more.
- ❖ Rupert has made a number of drawings, including: **Monique Bouvier**, the **Isle de Bete** ruins, the Levithan, several creatures at the **Gelingen Academy**, **Francisco Scaramanga**.
