Preface

Classic Monsters is a supplement aimed at giving *Black Hack* GMs rules for a wide range of monsters. The monsters have been selected from B/X and First Edition rules of *The World's Most Popular Fantasy Role-playing Game*. This makes *Classic Monsters* particularly handy for GMs who wish to run adventures written for those early games and their many clones.

Classic Monsters uses an index format which makes the assumption that GMs will already be familiar with the majority of the monsters included. However, should you need further information about a monster, most of it can be easily found with a quick internet search. In each entry, key game terms are presented in bold italics in the same way as they are in *The Black Hack Second Edition* rule book.

Ankheg - HD3

Mandibles - STR (1 Close) 5 dmg

- Surprise! **DEX Tests** at the start of combat are rolled with **Disadvantage**.

Ankheg - HD8

Mandibles - STR (1 Close) 10 dmg

Spit acid - DEX (1 Nearby) 7 dmg

- Surprise! **DEX Tests** at the start of combat are rolled with **Disadvantage**.
- It burns! Acid deals **Ongoing Damage**, needing a successful **CON Test** to stop.

Ant, Giant Worker - HD2

Mandibles - STR (1 Close) 3 dmg

- Pheromone spray! If threatened, a worker ant will release pheromones which will summon 1d6 **Nearby** soldier ants to its aid.

Ant, Giant Soldier - HD3

Mandibles - STR (1 Close) 4 dmg

Poisonous sting - STR (1 Close) 3 dmg

- Stinger! After a successful bite, the ant will use its poisonous sting on its next attack against the same target. If it hits, the victim must make a successful **CON Test** or take an additional 6 damage.

Ant, Giant Queen - HD6

Mandibles - STR (1 Close) 7 dmg

- Hive mind! The ant queen can control all **Close** and **Nearby** ants telepathically.

Ape, Man-eating - HD5

Club fists - STR (1 Close) 4 dmg

- Rend flesh! If a failed **Defence Roll** is an odd number, the target takes **Ongoing Damage** until they make a successful **STR Test** as an **Action**.

Basilisk - HD6

Bite - STR (1 Close) 7 dmg

- Stony stare! Turns a **Close** or **Nearby** target to stone unless they make a successful **WIS Test**. A basilisk's stare may be avoided by taking all **Actions** with **Disadvantage**.

Bat, Giant - HD2

Bite - STR (1 Close) 2 dmg

- Echolocation! Giant bats suffer no penalties in darkness, but in daylight, opponents make **Attack/Defence Rolls** with **Advantage**.

Bear, Black - HD3

Claw, claw, bite - STR (1 Close) 4 dmg

- Huggy bear! If a failed **Defence Roll** is an odd number, the target takes **Ongoing Damage** until they make a successful **STR Test** as an **Action**.

Bear, Grizzly - HD5

Claw, claw, bite - STR (1 Close) 6 dmg

- Huggy bear! If a failed **Defence Roll** is an odd number, the target takes **Ongoing Damage** until they make a successful **STR Test** as an **Action**.

Bear, Polar - HD6

Claw, claw, bite - STR (1 Close) 7 dmg

- Huggy bear! If a failed **Defence Roll** is an odd number, the target takes **Ongoing Damage** until they make a successful **STR Test** as an **Action**.

Bear, Cave - HD7

Claw, claw, bite - STR (1 Close) 8 dmg

- Huggy bear! If a failed **Defence Roll** is an odd number, the target takes **Ongoing Damage** until they make a successful **STR Test** as an **Action**.

Beetle, Giant Bombardier - HD2

Mandibles - STR (1 Close) 4 dmg

- *Acid cloud!* Fired from abdomen once per combat, deals 6 points of damage to all **Nearby** targets unless they make successful **DEX Tests**.

Beetle, Giant Boring - HD5

- *Flaming blood!* If a bronze golem is damaged by an edged weapon, the attacker must make a successful **DEX Test** or take 2d6 damage from the resulting, fiery blood spurt.
- *Immunity!* Can only be harmed by magical weapons and magical attacks. Also immune to fire-based attacks.

Golem, Clay - HD11

Fist - STR (1 Close) 15 dmg

- *Festering wounds!* All damage dealt by a clay golem can only be healed by magical means.
- *Immunity!* Can only be harmed by magical weapons and magical attacks. Edged weapons have no effect even if they are magical.

Golem, Flesh - HD9

Fist - STR (1 Close) 12 dmg

- Rechargeable! Electrical damage heals a flesh golem rather than damaging it.
- Immunity! Can only be harmed by magical weapons and magical attacks.

Golem, Iron - HD18

Fist - STR (1 Close) 18 dmg

- Poisonous breath! An iron golem can breathe a cloud of poisonous gas at a group of up to 4 **Nearby Creatures** up to 3 times per **Day**. The poison takes targets **Out of Action** unless they make successful **DEX Tests**.
- Fired up! Fire damage heals an iron golem rather than damaging it.
- Immunity! Can only be harmed by magical weapons. Spells have no effect except for **Lightning Bolt** which slows the iron golem for 3 **Turns**.

Golem, Stone - HD14

Fist - STR (1 Close) 12 dmg

- Slow down! On every other **Turn**, a stone golem can cast a **Slow spell** as an **Action** (see appendix C p.35).
- Immunity! Can only be harmed by magical weapons. Spells have no effect except **Stone to Flesh** (see appendix C p.36), which makes the golem susceptible to damage from normal weapons for the next **Turn**.

Golem, Wood - HD2

Fist - STR (1 Close) 4 dmg

- Clumsy! All **Initiative** rolls made against a wood golem are rolled with **Advantage**.
- Immunity! Can only be harmed by magical weapons and magical attacks. However, fire-based attacks do double damage.

Gorgon - HD8

Gore - STR (1 Close) 6 dmg

- Charge! If a gorgon has **Initiative** at the start of a combat, it will charge a random opponent and do double damage if it hits.
- Petrifying breath! A gorgon can breathe a cloud of petrifying gas up to 3 times per **Day**. The gas affects all **Nearby Creatures** in a 90° arc from the front of the gorgon's head. Victims are turned to stone unless they make a successful **DEX Test**.

Gray Ooze - HD3

Acidic pseudopod - STR (1 Close) 8 dmg

- Acidic excretions! A hit permanently dissolves 1 **Armour Die**. Once all armour is dissolved, further hits do double damage.
- Almost invisible! When first encountered, opponents must make a successful **INT Test** to avoid stepping on the ooze as it looks like wet stone. Failure gives the ooze a bonus attack against which **Defence Rolls** are made with **Disadvantage**.
- Immunity! Cold and fire-based attacks have no effect against a gray ooze.

Green Slime - HD2

Drop - DEX (1 Close) 0 dmg

- Slimed! If a green slime hits an opponent, it begins digesting them. It will digest 1 **Armour Die** every **Turn**. On the following **Turn**, it will dissolve clothing. Then, it will dissolve the victim's flesh in 1d6 **Turns**. The slime can only be removed with fire, and all damage from this is split equally between the slime and its victim.
- Immunity! Can only be damaged by fire or a **Cure Disease** prayer which will kill the slime instantly.

Griffon - HD7

Claw, claw, bite - STR (1 Close) 8 dmg

- Horse eater! Griffons crave horse flesh. Even a well-trained griffon will instinctively attack a **Nearby** horse unless their handler makes a successful **WIS Test**.

Halfling - HD1

Short sword - STR (1 Close) 2 dmg

Sling - DEX (1 Faraway) 1 dmg

- Hiding! A halfling hiding in a natural setting is almost invisible. Anyone actively searching for them must make a successful **INT Test** rolled with **Disadvantage**.

- *Heightened senses!* Invisible stalkers can track any **Creature** with a 100% success rate.

Killer Bee, Giant - HD½

Sting - STR (1 Close) 2 dmg

- *Poison!* Any opponent stung by a bee is taken **Out of Action** unless they make a successful **CON Test**.
- *Lodged stinger!* If a sting attack hits, it lodges in the victim and does 1 point of damage on each subsequent **Turn** unless removed. The bee dies when it loses its sting.
- *Magic Honey!* If the honey from a killer bee hive is collected, it will cure 1d4 **HP** per 2 pint dose.

Kobold - HD½

Short sword - STR (1 Close) 2 dmg

Javelin - DEX (1 Nearby) 2 dmg

- *Hate sunlight!* All **Defence Rolls** made against kobolds when in direct sunlight are rolled with **Advantage**.
- *Leaders!* Larger groups may have a leader (**HD2, 4 dmg**) and/or one or more sub-leaders (**HD1, 3 dmg**).

Leech, Giant - HD2

Bite - STR (1 Close) 3 dmg

- *Blood drain!* After a successful hit, a giant leech will drain its victim's blood doing **Ongoing Damage** until the leech is killed.

Lich - HD11

Touch - STR (1 Close) 12 dmg

- *Paralysis!* A lich's touch will permanently paralyze an opponent unless they make a successful **CON Test**.
- *Immunity!* Can only be harmed by magical weapons and spells. Immune to all charm, sleep, cold, electrical and mental effects.
- *Spellcaster!* A lich will have up to 10 spells memorized from levels 1-10 (see appendix C p.35-37). They will also have a spellbook with an additional 2d6 spells.

Lizard, Giant Draco - HD4

Bite - STR (1 Close) 5 dmg

- *Glider!* A draco lizard can glide between **Faraway** and **Close** locations using the flaps of skin that stretch between its legs.

Lizard, Giant Gecko - HD3

Bite - STR (1 Close) 4 dmg

- *Surprise!* A gecko can climb sheer surfaces allowing it to jump on opponents and surprise them. **DEX Tests** at the start of combat are rolled with **Disadvantage**.

Lizard, Giant Chameleon - HD5

Horn - STR (1 Close) 4 dmg

- *Surprise!* A chameleon can use its natural camouflage to blend with surroundings. This helps it surprise opponents. **DEX Tests** at the start of combat are rolled with **Disadvantage**.
- *Sticky tongue!* Grabs a **Nearby** target unless they make a successful **DEX Test**. A grabbed target is then **Stuck** and must defend against bite attacks that do 5 damage, making all **Defence Rolls** with **Disadvantage**.

Lizard, Giant Tuatara - HD6

Claw, claw, bite - STR (1 Close) 6 dmg

- *Enhanced infravision!* A tuatara can spot warm-blooded **Creatures** that are **Faraway** in total darkness.

Lizard Man - HD2

Club - STR (1 Close) 3 dmg

Flint spear - DEX (1 Nearby) 3 dmg

- *Man-eaters!* When fighting a human opponent, a lizard man can force them to make a **Defence Roll** with **Disadvantage** once per combat.
- *Leaders!* Larger groups may have a leader (**HD6, 7 dmg**) and/or one or more sub-leaders (**HD4, 5 dmg**).

Lurker Above - HD10

Crush - DEX (1d4 Nearby) 6 dmg

- *Surprise!* A lurker is easily mistaken for being a regular stone ceiling. **DEX Tests** at the start of combat are rolled with **Disadvantage**.
- *Suffocation!* Anyone hit by a lurker is trapped under it and takes **Ongoing Damage** until the lurker is killed. Victims make **Attack Rolls** with **Disadvantage**.

Lycanthropes: Common Traits

- *Immunity!* Can only be harmed by silver or magical weapons.
- *Infection!* If a lycanthrope reduces a human opponent's **HP** by 50% or more, the victim will become a lycanthrope of the same type themselves in 2d12 **Days**.
- *Wolfsbane!* If a lycanthrope is touched with this plant, it must make a **Morale Test** which is rolled with **Disadvantage**. If the lycanthrope fails, it will flee in terror.

Lycanthrope, Werebear - HD6

Claw, claw, bite - STR (1 Close) 7 dmg

- *Huggy bear!* If a failed **Defence Roll** is an odd number, the target takes **Ongoing Damage** until they make a successful **STR Test** as an **Action**.
- *Summon bears!* A werebear can summon 1d2 black or grizzly bears (p.3), which will arrive in 1d4 **Moments**.

Lycanthrope, Wereboar - HD4

Anti-Magic Shell: Cancels all Arcane magic *Nearby* to the caster - lasts *Ud6 Moments*.

Clenched Fist: Creates a giant hand that will strike any *Nearby* target. The hand has 18 *STR* and does 4d6 damage if it hits - lasts *Ud6 Moments*.

Contact Higher Plane: Allows the *Spellcaster* to ask 3 questions and receive truthful answers from the outer gods.

Death Spell: 2d4 *Nearby* targets with 7*HD* or fewer are taken *Out of Action* unless they make successful *CON Tests*.

Irresistible Dance: Causes a single, *Nearby* target to begin an uncontrollable dance unless they make a successful *CON Test*. The dance means all *Defence Rolls* must be made with *Disadvantage* and no other *Actions* are possible - lasts *Ud4 Moments*.

9th Level Spells

Control Weather: Controls the *Nearby* weather to all extremes - lasts *Ud6 Minutes*.

Crushing Hand: Creates a giant hand that will grab a *Nearby* target unless they make a successful *DEX Test* with *Disadvantage*. The victim takes 3d6 damage and then *Ongoing Damage* until they make a successful *STR Test* with *Disadvantage* as an *Action* - lasts *Ud4 Moments*.

Disintegrate: A single *Nearby Creature*, of lower *Level* than the *Spellcaster*, turns into a fine powder unless they make a successful *WIS Test* with *Disadvantage*.

Meteor Swarm: Creates a shower of meteors that do 8d6 damage to anyone *Nearby*. A successful *DEX Test* rolled with *Disadvantage* reduces the damage by half.

10th Level Spells

Level Drain: A *Nearby Creature* must make a successful *CON Test* or lose a *Level* and all its benefits.

Limited Wish: Changes reality in a minor and limited way.

Power Word, Kill: A *Nearby* target with 50HP or less dies and cannot be resurrected.

Time Stop: Stops time completely in a *Nearby* area - lasts *Ud4 Moments*.

Spellcasting Notes

Normally, when a *PC* casts a spell, the *Player* makes an *Attribute Test* to see if it works. For monster *Spellcasters*, the system needs adjusting so that the *Players* make *Attribute Tests* to avoid or reduce the effects of spells cast against them.

Monster *Spellcasters* gain spells in a variety of ways. Some will have spellbooks or scrolls from which to revise spells. Others will receive spells from their gods, or by arcane rituals. Every time a monster *Spellcaster* is encountered, the *GM* should decide how their spells are gained, and whether they are recorded in a way that would make it possible for the *PCs* to transcribe or learn them.

Shamans and Witch Doctors

Many groups of humanoid monsters may have a *Spellcaster* among their ranks. As a general rule, the *GM* should give them *HD* less than or equal to a leader or sub-leader of the same race, but the same *Attack Damage* as standard, non-leader types.

As a default, a humanoid *Spellcaster* will have a number of spells equal to their *HD*, and the levels of these should be also capped at their *HD*. For example, an orc witch doctor might be *HD3* and have 3 spells of levels 1-3.

APPENDIX D

CONVERSION RULES

Adapting monsters from old school editions of *The World's Most Popular Fantasy Role-playing Game* is easy. The notes here give loose guidelines for **GMs**, but as with everything in *The Black Hack*, the game thrives on your own creative ideas. The headings below detail each of the stats that appear in standard *B/X* and *1st Edition* monster listings. Most of them are not needed when creating a version of the monster for use with *The Black Hack*, but a **GM** may still elect to use them as presented in the original game:

Frequency: Ignore, or use as listed.

No. Appearing: Ignore, or use as listed.

Armour Class: Can usually be ignored. If a monster has a very good AC (1 or less for descending AC rules or 18 or higher for ascending rules), then consider giving the monster a special ability that features it. For humanoid monsters, a **GM** could also give them some **Armour Dice** (see p.10 in the main rule book).

Move: Can usually be ignored. If a monster has very fast movement or can swim/fly, then consider adding a special ability that reflects this.

Hit Dice: Use as listed. If the monster has a **HD** with a plus, it can usually be ignored or you may consider just increasing the **HD** by 1. For example, 3+1 becomes 3, but 6+6 might become 6 or 7.

% In Lair: Ignore, or use as listed.

Treasure Type: Ignore, or use as listed (see p.114-116 in the main rule book for treasure ideas).

No. of Attacks: These are combined with the Damage/Attack stat. For ease, group attacks together as a single combined attack such as claw, claw, bite. If the monster has a missile attack, then it should be listed separately. The example below shows how the attacks of a manticore (p.18) are listed compared to the original source.

Claw, claw, bite - STR (1 Close) 6 dmg

Tail spines - DEX (1-6 Faraway) 3 dmg

2 claws/1 bite 1-4/1-4/2-8 or 6 tail spines 1-6

Most melee attacks will target a single **Close** opponent. However, at the **GM's** discretion an attack may also have enough extension to hit a **Nearby** opponent instead - For example, a dragon's bite or a humanoid monster's polearm. Ranged attacks should simply be given a maximum range (**Nearby**, **Faraway** or **Distant**).

Damage/Attack: If using fixed damage, then the table below gives average damage by **HD**. Depending on the individual attacks, the values can be modified to reflect more powerful or weaker attacks.

HD	DAMAGE
1	2 (1d4)
2	3 (1d6)
3	4 (2d4)
4	5 (1d10)
5	6 (1d12)
6	7 (1d6 + 1d8)
7	8 (2d8)
8	9 (3d6)
9	10 (2d10)
10	11 (1d10 + 1d12)
11	12 (2d12)
12+	13 (3d6 + 1d8)

Special Attacks/Defences: If a monster has any of these, they should form the basis for the monster's special abilities. A selection of special abilities is listed in the right hand column on this page.

Magic Resistance: Can either be ignored or added as a special immunity ability.

Intelligence: Ignore, or use as listed.

Alignment: Ignore, or use as listed.

Size: Ignore, or use as listed.

Psionic Ability: Can either be ignored or added as a special spell-like ability.

Save As: Ignore, as monsters are not required to make saving throws. However, remember to always apply the **Powerful Foe** rule (see below), which gives high **HD** monsters an equivalent benefit.

Morale: Use the monster's **HD** as a benchmark. Some monsters (especially undead ones) never have to make morale checks. Other monsters may go berserk, which might enhance or even bypass any **Morale Tests** they have to make.

POWERFUL FOES

If a monster's **HD** is higher than the **Character's HD/Level**, the **Player** should add the difference between the two **HD** values to the d20 when making any **Attribute Tests** to **Attack**, **Defend**, influence, or otherwise interfere with the monster. When dealing with monsters that have a **HD** that is higher than a **Character's** by 10 or more, the **GM** may choose to apply a maximum penalty of +10 to be added to any roll. The **GM** may also rule that rolling a 1 always indicates a success, and that rolling a 20 always indicates a failure.

SAMPLE ABILITIES

Armoured! Any damage dice roll against an armoured monster is halved if the roll is even.

Blood drain! On a hit, the monster will drain its victim's blood doing **Ongoing Damage**.

Huggy bear! If a failed **Defence Roll** is an odd number, the target takes **Ongoing Damage** until they make a successful **STR Test** as an **Action**.

Immunity! Monsters can be immune to edged/piercing weapons, blunt weapons, non-magical attacks, fire, cold, electricity, charm, sleep, all spells etc. The immunity can be absolute or just partial.

It burns! Acid deals **Ongoing Damage**, needing a successful **CON Test** to stop.

Leaders! Larger groups may have a leader (**HD+2/3/4**, **+2/3/4 dmg**) and/or one or more sub-leaders (**HD+1/2**, **+1/2 dmg**).

Level drain! Anyone touched by the monster must make a successful **WIS Test** or lose 1 **Level/HD**.

Paralysis! Victims must make a successful **CON Test** or be **Paralyzed** until the end of the combat, the end of the session, or longer.

Poison! Victims must make a successful **CON Test** or be taken **Out of Action**.

Regenerate! The monster can regenerate 1/2/3 points of damage every **Turn**.

Surprise! **DEX Tests** at the start of combat are rolled with **Disadvantage**.

Stomp! Once trampled, a victim takes **Ongoing Damage** unless they make a successful **DEX Test**.

Swooping attack! If this flying monster wins **Initiative** at the start of combat, it can swoop in and attack doing double damage.

APPENDIX E

POISON TABLES

When a **PC** succumbs to a poisonous/venomous attack or effect, they would normally be taken **Out of Action**. The tables on these pages are intended to give the **GM** more options for determining poison effects.

D6 MILD POISON

- 1 Lose 1d4 **STR** for the rest of the session
- 2 Lose 1d4 **CON** for the rest of the session
- 3 Lose 1d4 **DEX** for the rest of the session
- 4 **Weakened** for the rest of the session
- 5 Slowed for the rest of the session. The victim may only **Move** and take an **Action** every other **Turn**
- 6 Roll twice, ignoring 6s or duplicates

D6 MODERATE POISON

- 1 Lose 1d4 **STR** for 1 week
- 2 Lose 1d4 **CON** for 1 week
- 3 Lose 1d4 **DEX** for 1 week
- 4 **Weakened** for 1 week
- 5 Take 1 point of damage per **Level** and roll on the Mild Poison table
- 6 Take 1 point of damage per **Level** and roll on the **Out of Action** table

D6 SEVERE POISON

- 1 Lose 1d6 off all stats for 1d4 weeks
- 2 Lose 1d4 **STR** permanently
- 3 Lose 1d4 **CON** permanently
- 4 Lose 1d4 **DEX** permanently
- 5 Take 2 points of damage per **Level** and roll on the Moderate Poison table
- 6 Take 2 points of damage per **Level** and roll on the **Out of Action** table

D6 OUT OF ACTION

- 1 Paralyzed for 2d4 **Hours**
- 2 Madness causes the victim to make a roll on the **Panic!** table (p.37 main rules), at a random point every session
- 3 Blindness means the victim may only **Move** and take **Actions** every other **Turn**, and all **Actions** are with **Disadvantage**
- 4 Necrosis withers a limb in 1d6 **Days**. Death follows unless it is removed
- 5 Death after 1d4 **Hours**
- 6 Death after 1d4 **Moments**

The **GM** should decide in what way natural or magical healing assists victims who have been poisoned. The 5th level prayer **Neutralize Poison** will stop effects if cast within 1 **Moment** of the poisoning. After that, the **GM** must decide what benefit it gives to the victim.

INITIATIVE

At the start of combat, **Players** make a **DEX Test** for their **Characters**. If successful, they **Move** and take **Actions** before their opponents. If they fail, they **Move** and take **Actions** after their opponents. At the start of each new **Moment**, make a fresh round of **DEX Tests** until the combat ends.

ATTACKING & DEFENDING

As an **Action**, a **Character** may make an **Attack**. The **Player** should make a **STR Test** for a melee **Attack** or a **DEX Test** for a ranged attack. If they succeed, the **Attack** hits and deals damage. Likewise, when **Defending** they also make a **STR** or **DEX Test** depending on the type of **Attack**. If they succeed, the **Attack** misses them. If they fail, then they take the damage listed or use their armour.

Combat Distances

Close - roughly 5 feet
Nearby - up to 30 feet
Faraway - up to 60 feet
Distant - beyond 60 feet

Large Weapons

When a **Character** wields a large or 2-handed weapon, 1d4 should be added to the result every time they make an **Attribute Test** to **Attack**, **Defend** or roll **Attack Damage**.

ARMOUR

If a **Character** fails to **Defend** against an **Attack**, they may take an **Armour Die** from their 'pool' and declare it **Broken**. After a **Rest**, they may attempt to fix **Broken Armour Dice** by rolling above their armour's **Armour Value (AV)**. If a roll is higher than the **AV**, then that **Armour Die** is fixed and placed back in their pool. If the roll fails, then the **Armour Die** remains **Broken** until it is repaired by a professional. If all the **Armour Dice** in a pool are **Broken**, then the armour is destroyed.

ARMOUR	AV
Cloth / Improvised	1
Leather	2
Chain Mail	3
Plate & Mail	4
Shield / Helmet	+1 die

Critical Hits

Rolling a natural 1 when **Attacking** does double damage. Rolling a 20 when **Defending** also does double damage.

POWERFUL FOES

If a monster's **HD** is higher than the **Character's HD/Level**, the **Player** should add the difference between the two **HD** values to the d20 when making any **Attribute Tests** to **Attack**, **Defend** influence, or otherwise interfere with the monster. Where monsters have a **HD** that is 10 or more higher than a **Character's**, the **GM** may choose to apply a maximum penalty of +10 to be added to any roll. The **GM** may also rule that rolling a 1 always indicates a success, and that rolling a 20 always indicates a failure.

ONGOING DAMAGE

Some **Attacks** and spells deal damage to **Creatures** after their initial effects. When a **Creature** takes **Ongoing Damage**, it loses **HP** equal to its **HD/Level** at the start of every **Turn**. An **Attribute Test** of the **GM's** choosing should be made by the **Player** at the end of the **Turn** to see if the **Ongoing Damage** continues.

D6 ✂ OUT OF ACTION

- 1 **KO'd** - Just knocked out
- 2 **Fat Head** - **Disadvantage** on all tests for the next half hour of play
- 3 **Cracked Bones** - **Disadvantage** on all **STR**, **DEX**, and **CON Tests** for the remainder of the session
- 4 **Disfigured** - **CHA** permanently reduced by 1d4
- 5 **Badly Maimed** - Either **STR** or **DEX** is permanently reduced by 2
- 6 **Dead** - The **Character** dies!

At zero or less **HP**, a **Character** is taken **Out of Action**. An **Out of Action Character** can no longer **Move** or take **Actions**. When they receive aid, or when the danger they were in passes, the **Character** must roll on the **Out of Action** table above to see what happens to them. If they roll 1-5, they suffer the effect listed and then rejoin play, recovering 1d4 **HP**. If they roll a 6, they die.

If the **Character's** side loses the fight, or is unable to recover the body of the **Out of Action Character**, the **Character** is lost forever - presumed dead!

HINDRANCES

Hindered **Characters** operate at a reduced capacity. Normally, an **Attribute Test** of the **GM's** choosing will be required to remove a hindrance.

Weakened - All **Attribute Tests** are rolled with **Disadvantage**.

Distracted - No **Actions** allowed, but may **Move** normally.

Stuck - No **Movement** allowed, but may take **Actions**.

Paralyzed - No **Movement** or any **Actions** allowed.

Slowed - May only **Move** and take an **Action** every other **Turn**.

Confused - Must make a successful **WIS Test** before **Moving** and **Acting** each **Turn**.

Morale

If 50% of a group of **Creatures** are taken **OofA**, or a single powerful **Creature** loses half its **HP**, the **GM** should make a **Morale Test** for them. To succeed, they must roll under the highest **HD** on a d12.

Poisoned - When a **PC** succumbs to a poisonous/venomous attack or effect, they would normally be taken **Out of Action**. These tables give the **GM** more options for determining poison effects.

D6 MILD POISON

- 1 Lose 1d4 **STR** for the rest of the session
- 2 Lose 1d4 **CON** for the rest of the session
- 3 Lose 1d4 **DEX** for the rest of the session
- 4 **Weakened** for the rest of the session
- 5 Slowed for the rest of the session. The victim may only **Move** and take an **Action** every other **Turn**
- 6 Roll twice, ignoring 6s or duplicates

D6 MODERATE POISON

- 1 Lose 1d4 **STR** for 1 week
- 2 Lose 1d4 **CON** for 1 week
- 3 Lose 1d4 **DEX** for 1 week
- 4 **Weakened** for 1 week
- 5 Take 1 point of damage per **Level** and roll on the Mild Poison table
- 6 Take 1 point of damage per **Level** and roll on the poison **Out of Action** table

PANIC!

If a **Character** ends their **Turn** with no **Light** underground, they must make a successful **WIS Test** or they will **Panic!** At the start of the **Character's** next **Turn** they must then roll on the **Panic!** table below. They must make a new **WIS Test** at the end of every **Turn**, to try and remove the **Panic!** Failure means that they continue rolling on the **Panic!** table at the start of each **Turn**. **Characters** might also suffer **Panic!** if they have to confront something terrifying at the **GM's** discretion.

D6 PANIC!

- 1 **Gritted teeth** - Make a successful bonus **WIS Test** in order to end the **Panic!**
- 2 **Frozen solid** - The **Character** is **Stuck**
- 3 **Shock** - Cannot perform any **Actions** that would involve the use of the hands
- 4 **Fumble** - The **Player** must perform everything this **Turn** with their eyes closed
- 5 **Life before the eyes** - Make a successful **CON Test** or lose 2 points of **WIS**
- 6 **Heart attack** - The **Character** is taken **Out of Action**

D6 SEVERE POISON

- 1 Lose 1d6 off all stats for 1d4 weeks
- 2 Lose 1d4 **STR** permanently
- 3 Lose 1d4 **CON** permanently
- 4 Lose 1d4 **DEX** permanently
- 5 Take 2 points of damage per **Level** and roll on the Moderate Poison table
- 6 Take 2 points of damage per **Level** and roll on the poison **Out of Action** table

D6 OUT OF ACTION

- 1 Paralyzed for 2d4 **Hours**
- 2 Madness causes the victim to make a roll on the **Panic!** table (p.37 main rules), at a random point every session
- 3 Blindness means the victim may only **Move** or take **Actions** every other **Turn**, and all **Actions** are with **Disadvantage**
- 4 Necrosis withers a limb in 1d6 **Days**. Death follows unless it is removed
- 5 Death after 1d4 **Hours**
- 6 Death after 1d4 **Moments**
