Desnai Template: Mechasassin

LIFEPATH: Not all Desnai are quiet, law-abiding mechajocks. There are those who really walk the edge, hiring out their link skills and specialized mecha to take out targets no normal Solo can get to. Mechassassins are highly prized as “bloodless” killers; deniable hit men whose weapons are self-propelled, silent and capable of getting in through the smallest cracks in tany defensive perimeter.

Cee-Metal Template: Stealth Operative

LIFEPATH: The Stealth Operative takes on the most difficult incursion missions; jobs where firepower is a liability and invisibility the greatest asset. Combining the basic Operative Body Shell with a digital fabric chameleon cloak (+4 to stealth), the Operative is *the* choice for spying, stealing or sneaking around. She's in, out and blending back into the crowd before you even know she was there...
