

NIGHT CITY INDEX

compiled by Amy Luther

INTRODUCTION

The following is a comprehensive index to the *Night City Sourcebook*. The NC book is a great supplement, but the flashmaps in the front don't cover everything inside, and there is no index. Without reading the book cover to cover, there's really no way to take full advantage of what it has to offer, and even then you've got to have a good memory for what you've read.

So, I submit this index. It's sort of a Night City Yellow Pages. Every location is sorted into a different category and listed by section code (B3#1, for instance). It's an easy way to look up exactly what you need at a moment's notice.

HOW TO USE THIS INDEX

Each entry has three fields: Name, Description, and Location. The table is currently sorted alphabetically into the Categories listed below, and the entries are in alphabetical order within each one. Just find the appropriate Category and run down the list of entries until you find the place you're looking for. Some establishments are listed in more than one category; CineMAXus, for instance, is a combination movie theater and braindance arcade, and is therefore listed under both Braindance and Entertainment. If all else fails, try a word search through your browser or your favorite word processing program.

The categories are:

Art, Bank, Bar, Body Sculpting, Braindance, Chipware, Clinic, Clothing, College, Communications, Computers, Convention Center, Couriers, Cyberware, Department, Electronics, Employment, Entertainment, Fashion, Food, Gallery, Government, Grocery, Gym, Housing, Industry, Insurance, Legal, Lodging, Medical, Music Industry, Office, Pets, Publishing, Radio, Real Estate, Religion, Restaurant, Security, Services, Shipping, Sports, Thrift, Transport, and Weapons.

CATEGORY DEFINITIONS

ART - Art supply stores.
BANK - Financial institutions: banks, savings & loan, accountants.
BAR - Nightclubs and bars.
BODY SCULPTING - Includes tattoo parlors.
BRAINDANCE - Braindance parlors and software.
