## KICKERS

Feel free to steal one of these options for a Scene to Establish. Think about what you want for your character!

It's an illegal street race and your character and someone else's are going to be in first and second place. Who wins and how does the loser feel?

Someone threatens your family. How? What do you do?

Your character and someone else's are talking about a third character when they walk in. Was it gentle praise and warm thoughts?

Agent Greaves has a warrant to arrest your character and someone else's, unless you go to work for the government in secret...
