## FUZION BLOKS

Welcome to Fuzion Bloks! Instead of some long winded thing, I want to jump right in!

### Character Creation

Character Creation for Fuzion Bloks is a little bit different than your regular Fuzion. It's mostly user friendly which is important to new players. Instead of using Character Points and Option Points, we are now using a Building Block process and Fuzion Points. In order to build a character you simply follow the Blocks and build your character from there. Here is the Building Block order:

- Choose your Character Type
- Character Experience
- Character Race
- Hero Theme
- Pick your Career Path
- Character Focus
- Professional Type
- Persona
- Buying Skills
- Talents
- Perks
- Powers
- Buying Armor, Gear, Weapons, Vehicles

### Character Types

The Character Type is used to start generating Characteristics and so on. Each Character Type comes with its own bonuses. Character Types are NOT stackable.

#### Civilian

This is your average level human, the typical person off the street.

Character Type Bonus:

All Characteristics start at 1.

May choose 1 additional skill outside of Common Skills at +2

#### Above Average

This is the next step up. Athletes come to mind with this type. The above average character type is much more active than the usual crowd or much smarter.

Character Type Bonus:

All Characteristics start at 2.

May choose 3 additional skills outside of Common Skills at +2

# FUZION BLOKS

## **Combat Oriented**

A combat oriented character is well trained. They include military, pirates and other combat oriented types.

Character Type Bonus:

All Characteristics start at 3.

May choose 4 Combat related skills at +2

May choose 3 Combat Related items.

+1 to ALL Damage caused by this character (this includes powers, guns, fist and so on)

## **Character Experience**

When creating characters the Game Master must tell players what experience level the players will be starting at. Each Experience level comes with certain bonuses. Character Experience is NOT stackable. Please note that Character Experience also determines how many Tiers players may choose when building characters.

### **Rookie**

The Rookie is new to the game. They have enough skill to hold their own to some degree, but not enough to make them instant heroes. Rookies tend to fall victim to bad decisions in their first few years. Then they move up in the world.

Rookies Gain:

50 Fuzion Points

2 Tiers

+1 to Characteristics in their Character Focus

+1 to all Player's skills.

### **Experienced**

The Experienced character is one that has been out there and knows the difference between a good decision and a bad one. This character can see the signs and knows how to schmooze with the best of them. This doesn't make you a well known hero, it just means you can strike fear in the minor criminals.

Experienced Gain:

100 Fuzion Points

4 Tiers

+2 to Characteristics in their Character Focus

+2 to all Player's skills

Gains 2 Power Stunts at level 2

# FUZION BLOKS

## Icon

The Icon has made her or his name extremely well known across the world. They are defined as protectors of cities and sometimes countries. The Icon is feared by his weaker enemies and respected by his equal villains. When the Icon character hits the scene people cheer (or sneer). Icons are sometimes even well known on alien worlds.

Icons Gain:

150 Fuzion Points

6 Tiers

+3 to Characteristics in their Character Focus

+3 to all Player's skills

Gains 3 Power Stunts at level 3

## Legend

The Legend is exactly that, a legend. On alien worlds they talk of these heroes and on Earth people have a hard time believing that they even exist. The Legend has proven themselves through blood, sweat, and tears. They have defeated the most powerful villains or have saved whole worlds. The Legend doesn't back down from anyone and has no problem putting people in their places. When a Legend shows up and you are on the wrong side, get ready for a serious butt whooping.

Legends Gain:

200 Fuzion Points

8 TIERS

+4 to Characteristics in their Character Focus

+4 to all Player's skills

Gains 4 Power Stunts at level 4.

## Character Race

Not everyone on Earth is human. There are those who are not of this Earth and others who have bred with normal humans. Some are machines and some are from beneath the Earth's surface. Every race has its advantages and disadvantages. Player's may only choose one race.

### Alien

This character is from another world or dimension. They are experienced with high technology and have a better grip on facing the uncanny. Some are extremely logical and some are warrior based.

Race Bonus:

+2 to Character Focus

+1 to Common Skills

+2 to three Skills

-1 to one to Weekly Resources

# FUZION BLOKS

## **Android**

Built by aliens or humans, this character is independent and very powerful. Some androids work for companies while others roam the Earth looking for meaning. Androids used to be programmed not to hurt humans, but now they are programmed to be free.

Race Bonus:

- +1 to Character Focus
- +2 to Common Skills
- +3 to Four skills of choice

## **Half-Breed**

Your parents were in love, but they weren't the same species. You gain the edge when it comes to both races. One half of you is human and the other half is not. This makes you a good target for government agencies who want to learn 'how' you came to be.

Race Bonus:

- +1 to Character Focus
- +1 to Common Skills
- 10 Fuzion points to buy a special power or ability that your non-human side has.

## **Human**

You are full blooded human. You live and die like one too. The normal human adapts to their environment and in times of need can pull off some pretty amazing stunts.

Race Bonus:

- +1 to Character Focus
- +1 to Common Skills
- +1 to Weekly Resources

## **Hybrid**

You are perfection personified. Your DNA is so perfect that it makes you 'super.' A Hybrid may be alien or human, but you are above all in the big cosmic picture. This also makes you dangerous.

Race Bonus:

- +2 to Character Focus
- +2 to Common Skills
- +2 to one Non-Combat Skill
- +2 to one Combat Related Skill
- +10 Fuzion Points for Powers or Talents ONLY

# FUZION BLOKS

## Hero Theme

Here are the most basic Hero Themes. Each theme comes with a description, a list of template skills that the character **MUST** take, Options that come with the theme and starting equipment. Hero themes may **NOT** be stacked. All skills included in the Hero Theme start at Level 2.

**Creating Hero Themes:** Here you can put together special ‘packages’ for players. Maybe you have a theme for a character that includes specific skills, options or equipment. These themes are extremely limited and may not be excessive. The Hero Theme is great for pointing players in a specific direction during the character creation process.

Here is a sample:

### **Soldier/Merc**

**Description:** You are all about guns, guns and more guns. You serve a higher cause, the one of WAR! You either serve in the armed forces or you have already done your time and now you work freelance. You pride yourself on loyalty, until someone screws you over. After that everyone is fair game. When you aren’t in uniform or in the field you are training or gathering intel for another mission.

**Skills:** Choose 4 Weapon skills, Martial Arts, Choose 2 Military skills

**Options:** **Membership, Combat Sense, Contacts**

**Equipment:** Military Uniform, Firearm of choice, Body Armor.

## Career Path

Welcome to Career Paths, where your character gets their meat. Each tier comes with a description, a list of template skills that the character **MUST** take, and Options that come with the tier. This is a great way to add the real crunch to your Hero Theme. The numbers next to the abbreviations are the Levels that the skills are at. So how many Tiers do you get to pick from? Game Masters determine the number of Tiers players may choose when creating characters. This is usually determined by Character Experience. As you stack your Tiers you will find that you might have overlapping skills. Just add the skill levels and that is your new skill level. *You pick a Tier that has Stealth REF 2 and then the next Tier your pick has Stealth REF 2. Your Stealth skill is now level 4.*

\*Special: Anyone who takes a military or martial arts TIER gain’s a +1 all damage caused by this character.

**Building Career Paths:** A career path is a specific set of skills based around a profession or academic field of study. There are four TIERS. TIER One is your basic civilian. TIER Two is the first level of education in any career. TIER Three is the next step up that covers experienced areas within a career. TIER Four is the final step of skill, where the people with career paths in this TIER have become almost masters of their career path.

When building a career path, pick between 10 to 30 skills that go with that career. You may also

# FUZION BLOKS

include one Option. Career Paths usually start at TIER Two and then work their way up. As you build higher level career paths in the TIER system you need to make sure there are 'prerequisites' that are met because you are essentially building on a previous career path. Career paths may be stacked. So if you choose to take 2 TIERS worth of a career path then you'd double the skill point value.

**Skill Levels:** Usually each career path starts at level 2. As you stack on the TIERS certain skills can go up in level (as discussed above). If you are developing a Fuzion Bloks game you might want to set up skill levels like this: 10 skills in a career path: 4 levels, 20+ skills in a career path: 2 levels

Here are samples from each TIER:

## TIER One

### **Basic Civilian**

This is where everyone starts. The Basic Civilian works five days a week and dreams big dreams. All players gain this for FREE.

- All Common Skills at Level 2
- Pick Two Non-Combat Skills at Level 2

## TIER TWO

### **General Military Career (SWAT, Paramilitary and other Combat Occupations)**

**Prerequisites:** For SWAT, a player must first have at least a Tier TWO in Law Enforcement and a Tier TWO in a choice of military branch.

There are military organizations all over the world that do not answer to any government. These individuals are ready for war in one form or another. This also includes alien military (players may adjust skills with the GM's approval).

TIER Three

## Special Forces

**Prerequisite:** Pick One Military Career Path

The military has many special units. These men and women fill out the rest of the US military special force units. They are highly trained to handle many situations both combat and intelligence. Many covert operatives have this type of training in order to fight their way out of a pinch if discovered. This also includes alien military (players may adjust skills with the GM's approval).

# FUZION BLOKS

## TIER FOUR

### **Military Officer**

**Prerequisite:** Pick One Military Career Path, Two Tiers of College/Linguist

These are the educated men and women who lead our troops from offices and from the front lines. They have all been to college and have training that suits their specific jobs. Officers tend to not be respected as much, but some officers are feared.

- Athletics: Climbing STR 2
- Athletics: Running MOVE 2

## **Character Focus**

The Character Focus offers up bonuses to players who choose to specify what style character they wish to play. The Character Focus is broken down into two groups: Mental and Physical

### **Physical Focus**

- +1 to Reflexes
- +1 to Hand-Eye Coordination
- +1 to Body
- +1 to Strength
- +1 to Constitution
- +1 to Movement
- 1 to Smarts
- 1 to Willpower

# FUZION BLOKS

## **Mental Focus**

- +4 to Smarts
- +2 to Willpower
- +1 to Hand-Eye Coordination
- 1 to Reflexes
- 1 to Body
- 1 to Constitution
- 1 to Strength
- 1 to Movement

## **Professional Type**

Players usually have jobs. This helps determine their Resource Points which may be used to buy items of need. It also covers overhead for room and board. Resource Points presented here are just the BASE line. The BASE increases by adding your Basic Education to the Resource Point BASE. Example: You work Part time so your BASE is 30 Resource Points per week. Your Basic Education is 6. Add that to your base. Now your Resources per week are 36 points. Players who take Skill Headers in a specific field also gain Resource Points equal to their Skill Level per week as long as they are working in that profession. If not there is no increase.

### **Per-Deum**

You work here and there when needed. Sometimes it can be steady and sometimes it can be extremely dead. Resource Points: 15 Per Week.

### **Part Time**

About three days a week you work. This job could be a stepping stone or just extra cash to have on hand. Resource Points: 30 Per Week.

### **Full Time**

This is your career job, or at least one that holds you over. You must dedicate at least five days a week, doing 8 hour shifts. You get paid time off at the rate of 2 weeks a year. Resource Points: 40 Per Week.

## **Persona**

Everyone has an attitude to them. This helps dictate what they are likely to say or what they might do in certain situations. It also defines their lifestyle in many ways. How they dress, stunts they might pull and who they might just piss off.

### **Arrogant**

The Arrogant player thinks that they are all that and more. They have killer gear, powers or more that make them so formidable that the player thinks they might very well be unstoppable. People with money tend to have this problem. They think that their money makes them Gods.

# FUZION BLOKS

The Arrogant player is also one that falls into deep depression and drug abuse if they get their butts kicked. They also are more likely to engage in acts of vengeance against the people who defeat or embarrass them.

Arrogants Gain:

+1 to PRE

+10 Fuzion Points

## **Cold Blooded**

This type of person is just cold. They don't feel for others and are likely to kill an innocent just to complete a mission. The Cold Blooded player tends to live for themselves and don't like working with a team. The only time a Cold Blooded player works with others is if there is a fat paycheck or an ulterior motive like access to kick-butt weapons and gear. Some Cold Blooded characters are on big corporate payrolls these days.

Cold Blooded Gain:

+1 to WILL

+1 to PRE

+5 to Fuzion Points

## **Compassionate**

The Compassionate player cares about those around them. They help those in need and are very quick to come to the rescue of the weak. A Compassionate player will prevent other players from doing harm to innocents. The downside is if the player causes harm to anyone who doesn't deserve it they tend to fall into depression and question themselves. If this happens the character is likely to pause or hesitate on other missions.

Compassionates Gain:

+1 to PRE

+10 Fuzion Points

## **Egomaniacal**

An Egomaniacal player is always up to no good. They scheme constantly to gain more and more, be it financially or material means. The Egomaniacal player is pretty smart and can work out any situation to their advantage. Some work for companies and others run them. Even more are masterminds plotting to take over everything from small businesses to entire planets. An Egomaniacal player thinks they are above everyone and cannot accept defeat, even when their operation is burning down around them.

Egomaniacals Gain

+1 to WILL

+1 to PRE

+1 to Smarts

# FUZION BLOKS

## **Hero**

The Hero dedicates their life to saving the world even when the world might not want saving. They get involved in things that are above the human range. A Hero is supposed to be selfless, but if they look good in the process they don't mind the press. Heroes mix it up with the worst of them and half the time end up getting killed.

Heroes Gain:

+1 PRE

+1 Body

+5 Fuzion Points

## **Sinister**

When it comes to being evil, this is the one that does it. They will kill an innocent, blow up whole villages and turn teammates against one another, all while smiling a devil's grin. A Sinister character can plot and outwit the general public. They will murder anyone who crosses their path or looks at them funny. Behind any scene of the macabre there is likely a Sinister person lurking. The Sinister player if defeated will work feverishly to exact revenge.

Sinisters Gain:

+1 to Smarts

+1 to PRE

+5 to Fuzion Points

## **Fuzion Points**

Fuzion Points (FP) are used to increase characteristics, buy skill levels, powers and gear. You may also use them to buy Talents and Perks. Here's how they work:

-Increasing Characteristic: 5 FP= 1 Characteristic point

-Buying Perk: 10 FP=1 Perk, 1 Perk level

-Buying Talents: 10 FP= 1 Talent

-Buying Skills: 10 FP= 1 Skill, 1 Level

-Buying Armor, Gear, Weapons: 5 FP=1 Resource Point

-Buying Magic, Powers, Psionics: FP= Power Rank

# FUZION BLOKS

## Characteristics

**Smarts (SM):** How intelligent you are.

**Willpower (WILL):** How you face danger and how cool you can be. Also how well you resist mental attacks.

**Presence (PRE):** How well you impress other people. Charisma in other words.

**Reflexes (REF):** The characteristic you use to dodge and be fancy with your moves.

**Hand-Eye Coordination (HEC):** How well you can pilot, shoot, and throw.

**Strength (STR):** Just like it says. Punch damage=STR. Kick=STR+2 (Both STUN)

**Constitution (CON):** How long the human body can function before needing a rest.

**Body (BDY):** Your overall size and body type.

**Movement (MOV):** How fast you can run, swim, and such. When using a map, each square of MOV counts as 1 action. When running it counts as half a square.

## Derived

**STUN:** This is how much non-lethal damage a player can take. Examples of stun damage include blunt object impact, falls, energy based damage and power damage. STUN is determined by multiplying Body times 10.

**HITS:** When your STUN is gone or when you get hit with lethal damage you lose HITS. Examples of lethal damage include edged damage and piercing damage. HITS are determined by multiplying Body times 10.

**Healing:** This is how much the player heals per day. Each day the player gains back HITS equal to their Body. After all HITS are healed the player then starts healing STUN damage.

**Natural Mental Resistance:** This is how much psychic damage a person may soak before they take actual damage. A human may resist psychic damage equal to their Willpower.

**Natural Physical Resistance:** This is how much physical damage a person may soak before losing STUN. A player may resist physical damage equal to their Body. This ONLY applies to STUN damage and not LETHAL damage.

**Run:** This is how fast your player moves when running. Run is determined by Movement times two.

**Initiative:** To determine who goes first during combat the player adds their Smarts+Reflexes+1d10. The highest numbers wins and gets the first action during combat.

**Actions:** This is how many actions you may do during your turn. Actions are equal to the player's **Reflexes + Movement/2**: These are the total Actions you are allotted per turn. This includes your Attack and Dodge.

**Popularity:** Popularity is important when you are helping wage war. Your base Popularity is determined by your PRE. Your base PRE equals your Popularity. For every 15 points of Popularity you earn, your PRE goes up by one. For every 15 points you lose, your PRE goes down by 1.

**Resources:** This is how much money you have. Each Profession has so many Resource Points. Players may convert FP into Resource Points (5 FP=1 Resource Point)

# FUZION BLOKS

## COMMON SKILLS

Everyone has skills. They help us live our day to day lives. Some are very obvious and others aren't. Common Skills are skills that everyone has. Players use Fuzion Points to build up their Common Skills. The Common Skills covers just the basics of life, nothing outside of that. Common Skills start out at level 1. Players may spend Fuzion Points to increase skills. The formula for using skills is as follows:

**Characteristic+Skill level+1d10.**

### **Hand to Hand**

This is your raw fighting ability in unarmed combat. Everyone can scrap when they need to.

Uses: REF

### **Evasion**

This is the ability to get out of the way when someone or something is about to hit you.

Uses: REF

### **Perception**

This skill helps you notice the obvious and not so obvious. Use this skill for spot, listen and other checks.

Uses: SM

### **Basic Education**

This covers basic math, science, English, and artistic skills. Stuff you learn from common knowledge and well as slight formal schooling.

The character can make his voice sound as if it's coming from somewhere other than himself. PRE

## **EDUCATION SKILLS**

### **BUREAUCRATICS**

You know how to deal with bureaucrats, cut out red tape, who to talk to, how to reach them, and how to extract information from bureaucracies. PRE

### **BUSINESS**

Knowledge of basic business practices, laws of supply and demand, employee management, accounting, procurement, sales, marketing. SM

### **COMPUTERS**

The ability to program and operate computers. SM

### **CRIMINOLOGY**

You know how to look for clues, dust for fingerprints, examine evidence, do ballistic tests, examine records, search through files, and so

on. SM

## **CRYPTOGRAPHY**

The ability to solve simple ciphers and encrypt or decode messages. SM

## **EDUCATION**

General knowledge, such as math, history, science, trivia, or current events. SM

## **ESPIONAGE**

Gathering and assessing intelligence and orchestrating spy operations. SM

## **\*EXPERT**

Any one field of knowledge: stamps, gardening, local lore, anime trivia, and so forth. This can be a hobby, or an in-depth knowledge of a specific field or area. This may be bought once per expertise. This counts as a single bonus of +5 to all rolls regarding that Skill. SM

## **LANGUAGES**

Must specify one particular language group (or dialect, computer code, type of sign language or hand signals). Must specify primary language in the family; all others in that group are at 1/2 of primary. SM

## **LOCAL EXPERT**

Knowledge of an area; who's who, where things are, general customs, schedules, and peculiarities of the environment. SM

## **NAVIGATION**

## Talents

Talents are those abilities that people were just born with. Each Talent costs 5 FP. If the Talent can have levels then each level costs an addition 5 FP. Here is a list of Talents

Acute Senses (X)	Immunity	Speed Reader
Ambidexterity	Intuition	Time Sense
Animal Empathy	Lightning Calculator	
Beautiful/Handsome (X)	Light Sleeper	
Blind Reaction	Longevity	
Combat Sense (X)	Negative Psionic	
Common Sense	Night Vision	
Direction Sense	Perfect Pitch	
Double Jointed	Rapid Healing	
Eidetic Memory	Schtick	
High Pain Threshold	Simulate Death	

### Acute Senses [X]:

One of your five senses (sight, sound, smell, touch, taste) is extremely acute. If the sense is touch, you can read print with your fingertips, feel tumblers moving in a lock, and determine subtle differences in materials by feel. If the sense is smell, you can instantly detect people or substances by scent alone and can track them like a bloodhound. If the sense is sight, you automatically gain a +1 bonus in all sight related Perception checks, and treat all ranged attack modifiers as being 2 points less than normal. If the sense is taste, you can perceive subtle additions to food and detect harmful substances with the barest taste.

### Ambidexterity:

You can use tools and weapons with either hand at no penalty (normally -3 for using off-hand).

### Animal Empathy:

Animals like you; they will never harm or attack you unless severely provoked. You always seem to attract whatever animals are common to the area, and they will immediately gravitate to your side, although they may not necessarily do what you ask them to.

### Beautiful/Handsome [X]:

You are extremely good looking; people will automatically stop and stare at you when you pass, and you are generally surrounded by admirers. In addition, you automatically have a +1 bonus to your Persuasion, Performance, and Wardrobe/Style skills for each level taken.

### Blind Reaction:

You can counterattack (in hand to hand only) with no negative modifiers for darkness or being obscured (-4), even if you can't see or hear your opponent.

# FUZION BLOKS

## **Combat Sense [X]:**

Your reflexes are keyed for danger; you automatically react faster to danger than anyone else; for every level taken (up to 5) you may add +1 to your Initiative rolls (in combat only).

## **Common Sense:**

You always look before you leap; the GM must give you warning whenever you're about to do something particularly foolish, even if there are no perceptible clues present. He doesn't have to specify the danger, just that "this might not be a smart idea..."

## **Direction Sense:**

You are never lost, always know where North is and can orient yourself easily without any external cues.

## **Double Jointed:**

You can bend your limbs and joints in impossible ways. You can fit into any space equal to half your height and width and it is impossible to tie you up or entangle you with a single rope; you can only be restrained using restraints like cuffs, shackles, or nets.

## **Eidetic Memory:**

You never forget anything you have read, seen, heard, smelled, or touched.

## **High Pain Threshold:**

You are especially resistant to pain and shock. When wounded, you will reduce the amount of STUN taken by 2 points each time and the effects of Impairing wounds (when used) by -2.

## **Immunity:**

You are immune to the effects of one specific poison or disease group (must specify).

## **Intuition:**

You have an uncanny feel for hunches; the GM will give you a chance to make a Perception roll whenever he thinks you might get a hunch, even if there are no perceptible clues present.

## **Lightning Calculator:**

You can automatically do complex mathematical operations in your head without using any aids.

## **Light Sleeper:**

You wake instantly from even the lightest touch or smallest sound (no Perception check required).

## **Longevity:**

You are extremely long lived, but do not show any appreciable signs of aging. No matter how

# FUZION BLOKS

old you are, you always look and feel as a person half your age.

**Night Vision:**

You can see in all but absolute darkness.

**Perfect Pitch:**

You always know if something's in tune, and automatically gain at +3 bonus in any musically related task (singing, playing instruments, etc).

**Rapid Healing:**

You heal extremely fast, recovering an extra 3 Hits per time unit in addition to your normal healing rate.

**Schtick:**

A schtick is a special habit or personal affectation that has little or no actual effect on skills or combat abilities. Examples might be: always having a wind wafting your hair or cape dramatically, always having dramatic lighting striking your face, being able to toss your hat on a hook when you walk in; always having a cigar hidden somewhere on your person, etc. Schticks must be okayed by the GM and should never have an important combat or skill application—always shooting the gun out of the bad guy's hand would be a very dangerous schtick to allow.

**Simulate Death:**

You can lower your heart rate and breathing to such a low level that it is a Legendary Difficulty to tell whether you are dead or not.

**Speed Reader:**

You can read one page of any normal text that you are familiar with in three seconds (you can read a 200 page book in 10 minutes).

**Time Sense:**

You always know what time it is, always know how much time has elapsed between the present and the last time you checked.

## Perks

It pays to be you. There are certain privileges or advantages you have over others in the social arena. Each Perk costs 3 FP and 1 FP per level.

Allies

Followers

Society

Membership

License

Contract

Favor

Rank

Renown

Wealth

### **Allies [1 per level]**

Everyone needs friends who will come to help you. In a world where there is danger around every corner, it's good to have allies. For every 2 FP the player gains one ally.

### **Followers [1 per level]**

Everyone needs followers. For each level in this Perk the player may have that number times 10! These followers are not equal to the person with this. Instead they are lesser of them.

### **Society [1 per level]**

There are those who group together in classes. To represent this, players who buy Society may choose what group they belong to. For each level bought shows how they rank in that group.

### **Membership [1 per level]**

You can call upon the resources of an organization, person, government, or group—but you also have responsibilities. The level of Membership represents your character's status in the organization, not the influence of the group (that's what the multipliers above are for). For example: A Membership of 1 at in the FBI would make you a janitor, but at 10 you're the Director's right-hand man. A version of this is Authority, in which the character is an agent of the law and has the power to arrest, detain and use deadly force.

### **License [1 per level]**

The character has a legally sanctioned right to do things that would normally be considered illegal (license to kill, to collect taxes, hunt criminals, etc). Licenses are individual cases, granting you authority rather than "loaning" you use of the authority of a group (as above)—you get no resources, but you also don't have so many responsibilities. By example: a license to sell arms might cost 2; a Private Investigator's license 4; a Bounty Hunter's license might cost 6; a Guardian 8, a Nuclear Sales license costs about 9, and having an unconditional license to kill might cost 10.

# FUZION BLOKS

## **Contact [1 per level]**

You know someone who can (and generally will) help you through money, power or sheer skill, and this help is usually “off the record.” A mercenary who’ll occasionally back you up in a fight costs 3, a local Yakuza Boss costs 6, the head of the FBI costs 9. Remember that the level of the contact is based on several factors: a student’s not much, but a student who’s willing to die for you...

## **Favor [0.5 per level]**

A one shot Contact; you can make use of this contact only once, but they MUST do what you ask (as long as its appropriate). Note that it’s often useful to have favors from a lot of people in different areas rather than one contact who does everything.

## **Rank [2 per Rank]**

Your military rank is important in XI. Sometimes it’s good to be a higher rank when you need something done and sometimes it’s not so great. The skipper goes down with the ship. When creating your character you will either end up being enlisted or an officer. If you are enlisted you buy ranks in the E Pay Rate. If you an officer then you buy from the O Pay Rate. Just to help you out, pilots and leadership are officers. Most ground troops are enlisted.

## **Renown [1 per level]**

Your reputation, usually in a favorable light. People go out of their way to curry favor with you, or to at least avoid getting on your bad side. At 3, most local people know you; at 6 you’re nationally known; at 9 you’re an international figure.

## **Wealth [1 per level]**

Characters are assumed to be lower middle class, but wealth boosts your lifestyle. Spending 1 FP places you comfortably in the middle class, capable of buying common things and living in a decent place. Level 2 is upper middle class; you can buy most everyday things and live in a very nice place. At levels 3~4, you are well to do and have more than enough money to support yourself; you need work only occasionally, can afford costly hobbies, and have an expensive home. At 6 you’re rich; you don’t have to work at all, can afford large purchases like cars or vacations, and live in a very expensive home. At 9, you’re a millionaire, can live anywhere and buy almost anything you want. The GM might let you exceed Wealth 10, making you a billionaire!

# FUZION BLOKS

## Gear

In order to buy gear players must use their Fuzion Points. Why FP and not Option Points (OP)? In order to streamline character creation to a harmonious process, all point values are Fuzion Points. This way if players have an odd number of FP left over they may buy gear or if the player isn't a super powered type, they may shop from here. This list really works well for the normal human Vigilante.

## **Tech Levels [TL]**

Because there is so much diversity on Earth, there are different levels of technology. A normal human might not be able to comprehend a Matter Transporter, while someone who is really smart could. In order to understand what each tech level represents we are providing you with this list:

Tech level 1: Pre-industrial

Tech level 3: Victorian

Tech level 4: Early 20th Century

Tech level 5: Late 20th Century

Tech level 6-7: Near Future

Tech level 8-9: Interstellar Far Future

Tech level 10: Hyper Science (Technology of the Super Smart Aliens)

## Armor

Armor, like gear, is bought with Fuzion Points. Armor works like this:

- 1) Any damage done over armor rank does damage to armor directly. So an armor of 10 that takes 11 points of damage will now be 9. Once the armor is gone the player will begin to take damage.
- 2) For every 10 points of armor, the player suffers -1 to their REF.
- 3) Location: Where the armor protects. Any area that gets hit in an unlisted area takes normal damage.

## Weapons

Weapons are bought with Fuzion Points too. These are your basic tools to inflict pain upon others. There are some basic rules to weapons. Some weapons do STUN damage and others do LETHAL damage.

**LETHAL Damage:** Any weapons that does sharp or edged damage. Includes lasers.

**STUN:** Any weapon that does blunt damage or energy style weapons.

**Melee:**

**Damage:** As it says. Add your **STR** to your damage. So if you have a **STR** of 3, then you'd gain a +3 to the final damage.

**-Number of hands:** How many hands it takes to use this weapon

# FUZION BLOKS

## Shooting:

-**Damage:** As it says.

-**Range:** How far the weapon can shoot.

-**Ammo:** How much ammunition the weapon has in a clip and such.

-**Firing Rate (FR):** How many rounds can be fired in one turn. When firing more than one round players roll the damage times the number of rounds fired.

-**Number of hands:** How many hands it takes to use the weapon.

## Mechanics That Players Need to Know

**Resolving Actions:** Characteristic + Skill Level + 1d10 (against another player the higher end result wins)

**KD:** The stopping power of a material or armor. Subtract the KD from damage before taking away from SDP.

**SDP:** Structural Damage Points

**Kills:** 1 Kill= 50 Points of Damage, 1 Kill also equals 50 Hits

**Resource Points:** 1 Resource Point= 5 FP and Vice Versa (BUT ONLY TO BUY COMMON ITEMS)

## HOW GOOD IS MY SKILL?

**Less than 1 (Challenged):** You don't know how to do this task at all.

**1-2 (Everyday):** You've learned the basics of this task, and can do this thing most of the time, though not very well. You're an apprentice or a beginner.

**3-4 (Competent):** You are well trained and practiced in this skill, and can perform it well in everyday circumstances. You can handle unusual applications of the skill with some difficulty. You're considered a professional.

**5-6 (Heroic):** You are a master of this skill, and are capable of unusual applications of the skill. You are considered a master craftsman.

**7-8 (Incredible):** A skill at this level means you're one of the very best in the world. You are at ease with unusual applications of the skill, or even new applications. This is entering the realm of fiction, of amazing skill that's not quite impossible!

**9-10 (Legendary):** A skill at this level puts you in the realm of the greatest practitioners of this skill in history. You are pushing forward the boundaries of the skill and what it can be used for, and have entered the realm of genius and of fiction.

**More Than 10+ (Super-heroic):** Skills at this level are better than anyone could believe in the real world. This realm belongs to comic books, science fiction, fantasy or mythology.

- 20 Causing major destruction with civilian casualties.
- 30 Murder, killing a villain
- 50 Murder, killing innocent bystanders
- 75 Destroying a planet!

## DC vs. KD

### SDP: Structural Damage Points

Balsa Wood: 4 SDP  
 Plastic: 5 SPD  
 Wooden Boards: 7 SDP  
 Bricks: 8 SDP  
 Aluminum: 9 SPD  
 Iron: 13 SDP  
 Hardened Steel: 19 SDP  
 Titanium: 23 SDP  
 Alien Metal: 27 SDP  
 Super Alien Metals: 31 SPD

## Materials

In a lot of games you see where certain weapons cannot punch through certain types of armor. For each 6 points of **KD**, a single **DC** cannot penetrate. So if someone has 12 **KD** and they were being hit with a 2 **DC** weapon, there would be no damage or penetration. If the attacker has 3 **DC**, then yes it would penetrate. Above is a chart to show how much DC is needed to penetrate armor. Any weapon that can penetrate ignores the damage reduction provided by the armor. The only time this doesn't apply is with Armor Piercing Weapons.

# FUZION BLOKS

## Variations of Damage

**Blunt, Electrical, Fall damage:** Stun

**Ballistics, Beam, Pointy, Sharp and Radioactive damage:** Lethal

## Stun Effects

<u>Stun</u>	<u>Effects</u>
1-2	Nothing Happens
3-4	Character shaken.
5-6	Stunned 1 turn
7-8	Stunned 2 turns
9-10	Stunned 3 turns

## Lethal Effects

<u>Hits</u>	<u>Effects</u>
1-2	Painful wound, no effect
3-5	Light Bleeding, no effect
6-10	Steady Bleeding, Lose 1 Hit per turn until stopped
11-15	Heavy Bleeding, Lose 2 Hits per turn until stopped
16-20	Massive Trauma. Player will die in number of turns equal to BODY

## Medical Skill and Healing

If a player is bleeding out and they need medical treatment then it's a good thing to have some type of medical skill. In order to stabilize a patient the player rolls their Medical Skill+Characteristic+1d10, difficulty equal to the lost Hits. So if a player has 30 Hits and they suffered 15 points of damage, then the difficulty will be 15. If they received multiple injuries (4 damage from a knife, 10 from a gun and 12 from an explosion which did the bleeding damage then the difficulty would be 28).

**Head:** Any time a player is hit in the head they must make a Con save, difficulty equal to the damage taken. If they fail then the player is out for 1d10 turns. If the player takes 15+ points of Lethal damage to this area all at once they are dead.

**Neck:** A player hit in the neck runs risk of losing their head, literally. If a player takes over 20 points of Lethal damage to the neck all at once, then player is decapitated.

**Chest/Torso:** If a player takes over 25 points of Lethal damage to this area all at once, then player dies.

**Hands/Limbs:** Players who take 15 points of Lethal damage all at once find themselves without this limb.
