With this chart you can quickly determine the height & weight for male Sil-Karg (Half-Hobgoblin) PCs and NPCs. This chart utilizes the Metric system of measurement. If you prefer to use English measurements use **FGM031me: d30 Male Sil-Karg Height & Weight Table**.

Using these tables: Roll 2d30 to determine the height & weight of a male Sil-Karg. The first roll determines the height which you cross-reference with the second roll to determine the Sil-Karg's weight. Because there is a rather large height differential between the genders, female Half-Hobgoblins are covered in tables FGM031ne & FGM031nm.

With this chart you can quickly determine the height & weight for various Pixie-Kin PCs and NPCs. This chart utilizes the Metric system of measurement. If you prefer to use English measurements use **FGM031oe: d30 Pixie-Kin Height & Weight Table**.

Using these tables: Roll 2d30 to determine the height & weight of a Pixie-Kin. The first roll determines the height which you cross-reference with the second roll to determine the Pixie's weight. As most Pixie-Kin (Pixie-Fairies, Pixie-Brownies, Pixie-Leprechauns, Pixie-Nixies, & Pixie-Sprites) are somewhat androgenous, there are no suggested modifications based on gender. Because Pixie-Kin are so small, their height is expressed to the nearest tenth of a centimeter and the weight to the nearest tenth of a kilogram.

With this chart you can quickly determine the height & weight for Gnomeling PCs and NPCs. Gnomelings are a cross between Gnomes and Halflings. This chart utilizes the Metric system of measurement. If you prefer to use English measurements use **FGM031re: d30 Gnomeling Height & Weight Table**.

Using these tables: Roll 2d30 to determine the height & weight of a Gnomeling. The first roll determines the height which you cross-reference with the second roll to determine the Gnomeling's weight.

Optional Adjustments for Gender: Roll 1d30+2 for the height and 1d30-2 for the weight of a female Gnomeling.
