With this chart you can quickly determine the height & weight for various Pixie-Kin PCs and NPCs. This chart utilizes the Metric system of measurement. If you prefer to use English measurements use **FGM031oe: d30 Pixie-Kin Height & Weight Table**.

Using these tables: Roll 2d30 to determine the height & weight of a Pixie-Kin. The first roll determines the height which you cross-reference with the second roll to determine the Pixie's weight. As most Pixie-Kin (Pixie-Fairies, Pixie-Brownies, Pixie-Leprechauns, Pixie-Nixies, & Pixie-Sprites) are somewhat androgenous, there are no suggested modifications based on gender. Because Pixie-Kin are so small, their height is expressed to the nearest tenth of a centimeter and the weight to the nearest tenth of a kilogram.
