

Scooby Doo

Paper Miniatures

Scooby Doo and the gang are ready for all your mystery needs! **SCOOBY-DOO** and all related characters and elements are trademarks of Hanna-Barbera and used without permission, for non-commercial use. These miniatures were created using blank Sparks outlines from S. John Ross at <http://www.io.com/~sjohn/cumberland.htm>. There are a multitude of fine Sparks paper miniatures available, many of which will make fine mysteries for Scooby and the gang to investigate.

The figures are sized roughly 25 - 28 mm and easy to assemble, by folding all lines inward and gluing or taping the two bottom pieces together to form the base. I recommend that you print them out on at least 65 lb. Cardstock for regular use. Print them without the “Expand small pages to paper size” box checked.
