

# Britain, 2069

Britain after more than fifty years of Tory rule can be as dystopian- or as everyday -as you want it to be. Feel free to build the setting or add features to the map as you go along: or if you want a more dystopian flavour, roll on the tables below for some starting scenarios

## Setting details

1

Public libraries have all been replaced by huge skull statues for performing necromantic rituals.

2

The Secession Wars have resulted in several counties- and even some London Boroughs- claiming independence.

3

Unnamed Megacorporation has taken over all public services- fire and ambulance services are all now included in a prime subscription.

4

They say Scotland is a nuclear wasteland- but could it be that they just don't want you to know what's really there?

5

The schools funding crisis has been solved with tuition fees from age 11- you all begin the game in debt to the state.

6

Ireland, Wales and much of the East of England have been flooded- what strange creatures lurk in the depths?
