.500in Linebaugh	Ball	24 / 22	24 / 22	23 / 21	22 / 21

A single number represents a Subsonic cartridge that has the same DD value for unsuppressed and suppressed use.

A split number represents a supersonic cartridge that has separate values for unsuppressed (first) and suppressed (second) use.

A "~" represents no value available, generally because no data is available. If you need a DD for the .25acp at 250m, the GM is going to have to wing it.
