Tumor

Health

Type: Physical

Range: Touch

Target: Body (R)

Duration: Permanent (10)

Drain: (F/2+4)D

Tumor causes the target to develop a localized tumor at the location of the magician's touch. If the net successes exceed 4, the tumor is considered to be malignant (i.e. cancerous). If a cancerous tumor is not excised or neutralized within several days the effects of the disease will spread to other parts of the body. Regardless of the type of tumor, the visual effects of the growth may not become visible for many days. (GMs: Be careful with this one.)

Example Of Use:

Jill Magician has finally tracked down Maanas Grall, the individual responsible for detonating a bomb in a Seattle playground, killing 25 children. Having stealthily broken into Maanas's apartment, Jill stands gazing over the sleeping body of the murderer. She determines that such a monster deserves something far worse than a quick death, so she reaches out her hand and gently touches Maanas's bare chest, near the heart. She gives the spell her all, blowing extreme amounts of karma during the test, and generates 7 successes. The GM determines that the tumor she generates is not only malignant, but is already beginning to spread to other parts of Maanas's body.

Orgasm

Control Manipulation

Type: Mental

Range: LOS

Target: Willpower (R)

Duration: Instant

Drain: (F/2+2)M

When successfully cast, this spell causes the target to experience an orgasmic climax resulting in a pretty good amount of distraction. For each success generated, the target receives a +1 modifier for all actions. The plus modifier decreases by 1 each following turn until it reaches zero.

Example Of Use:

Jill Magician is in a Seattle park watching a speech being made by a local politician, William LaFunk, that she personally hates. She casts Orgasm on him, generating 4 successes while LaFunk generates only 1. A sudden yelp echoes through the park as LaFunk experiences a personal moment in front of 1000 people and is unable to say anything but "Oh, boy...." for the next 9 seconds.
