# Foreword

Welcome to this special edition of "Grim's Amazing D100 tables. We fantasy gamer's don't half love those demonic denizens that populate virtually every system in some way shape or form. So, we present this special summoned demon generator. To start, simply begin by rolling the D100 base form chart, then add features by using the various optional feature charts.

In tradition, demons took many forms, sometimes horrific, often angelic. Indeed the terms Angel and demon are the same, and share all the same features. Therefore you should keep in mind that if your randomly generated demon turns out looking just like a generic angelic being, this fact will account for this! Occult literature such as the Goetia, are full of strange and bizarre entities, that seem randomly rolled at times, so with this booklet, you can create a multitude of demonic forms, or at least the inspiration behind your next demonic foe.

**Grim**

**Roll D100**

## **BASE DEMON FORM CHART**

1. A green furred house cat with a husky voice.
2. A midget with bleeding eyes.
3. A giant ferret with red eyes.
