Letters Of Marque: Starship Deckplans

“Hull Breach on Deck C! Boarders Have Entered the Ship!”

Though considered little more than pirates, privateers roam the spaceways of the 50th century. Operating under their Letters of Marque, authorization from noble houses to hunt their rivals' ships, these rogues seek out and capture enemy ships, often selling them back to their sponsor for far less than it would cost to build a new one.

“Letters of Marque: Starship Deckplans” is a collection of deckplan maps for use with the **Noble Armada** miniatures game or the **Fading Suns** roleplaying game — it has also been approved for use with **Traveller**®! In fact, it can be used with just about any science fiction game. Five starships are featured, each depicted on 25mm-scale maps — perfect for detailed boarding actions or roleplaying game firefights from corridor to corridor, stateroom to engine room.
