WISH LIST

MAKES LIFE EASIER

It's that time of year again – time for people to run around maniacally gathering gifts for their loved ones, and then running around maniacally trying to exchange those gifts, because they aren't quite sure what they were looking for. Remove yourself (and the people buying you gifts) from this scenario by using our official Games Workshop Wish List! It will make it plain as day to your generous benefactors (the folks giving you gifts) what it is you'd like to receive.

GET YOUR GW STUFF!

Starting a new army? Spotted a boxed set you'd like to add to your existing forces? Want to start playing a whole new game? How can you get your hands (or claws, or gauntlets, or tentacles) on those great Citadel Miniatures and Games Workshop products? Read on...

INDEPENDENT RETAIL STORES

In the United States and Canada, there are over 1,000 Independent Retail Stores (often called Rogue Traders!) that carry Games Workshop products. You should be able to find all the products shown here in the Holiday Catalog and more! Additionally, many Rogue Trader shops run tournaments, gaming events, and demonstration games. It isn't just your local shop – it's your Games Workshop hobby connection! To find the Rogue Trader shops in your area, you can go online at www.games-workshop.com and look under "Shopping" or call our helpful Hobby Specialists at **1-800-394-GAME** and they can find shops in your region!

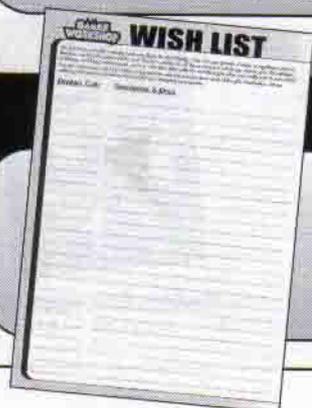

HOBBY CENTERS

Games Workshop Hobby Centers are staffed with hobby fanatics that will be glad to help you learn how to play, become a better painter, or answer any of your hobby questions. Stop in, and we'll be glad to help you out! For a full list of Hobby Centers across North America see p. 34 of the catalog.

MAIL ORDER & WEB STORE

If you can't make it to a local shop or find the exact products you are after, the Games Workshop Mail Order service and online store are at your service. Mail Order is staffed by friendly Hobby Specialists who can answer your questions and process your order. Visa, Mastercard, American Express, and Discover are all accepted. Just give us a call at **1-800-394-GAME**. The Games Workshop web site has plenty of hobby information and an online store where you can order products 24 hours a day. Log on at: www.games-workshop.com.

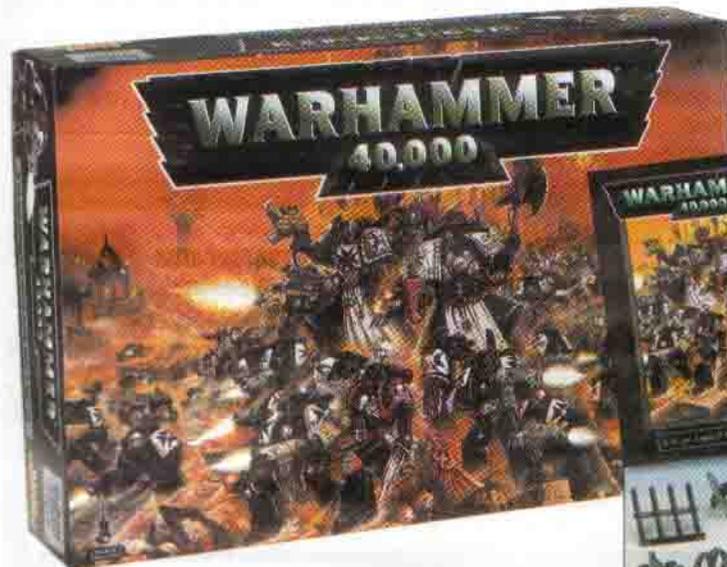

USING YOUR WISH LIST

Fill out your wish list by writing down the product codes & descriptions of the items you are hoping to score for the holidays and direct your potential gift giver to the nearest store. If you have been given a Wish List and it has many suspicious markings, simply take it to any Independent Retail Shop or Games Workshop Hobby Center and ask the friendly staff to give you a hand!

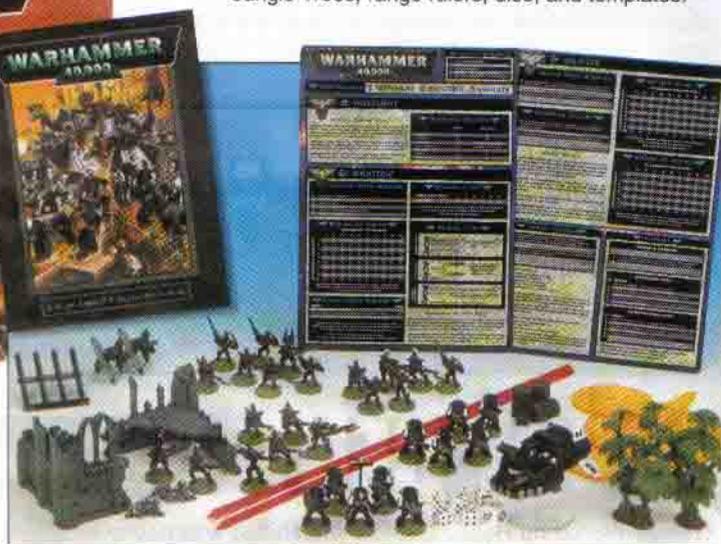

WARHAMMER

Warhammer is a game in which tremendous armies of hardened troops engage in conflict on the battlefields of an expansive fantasy world steeped in legend, lore, and history. Battles rage constantly across the landscape, and mighty fortresses succumb to the power of a siege, all as the balance of power between good and evil tilts back and forth with each passing day. Once in the thick of the fight, you stand in command of your army and use your wits, skill, and strategy (and of course, a little bit of luck) to lead your troops to glorious victory or shameful defeat.

SPECIALIST GAMES

BATTLEFLEET GOTHIC

Battlefleet Gothic is set in the Gothic sector of space in the 41st millennium. You take control of the Imperium, Space Marines, Chaos, Eldar, Dark Eldar, Orks, Tau, Tyranids, or Necrons – all of whom have their own objectives for the Gothic sector.

You are the admiral of a fleet of ships ranging from the immense but lumbering Imperial battleships that are miles long and whose barrages can disintegrate an enemy ship in one blast to the small fighters that swarm around their mother ship like so many small bugs fending off enemy bombers and torpedoes.

The boxed game includes:

- A 160-page rulebook.
- Four Imperial Cruisers and four Chaos Cruisers.
- Twelve assorted dice, two plastic range rulers, and over 100 game counters.
- A Fleet Registry Roster Pad, two reference sheets, and a Getting Started Guide.

GW COMPLETE CATALOG

Announcing the largest and most complete catalog ever offered by Games Workshop. This is *the* ultimate resource for the best miniatures in the world!

ARRIVING EARLY NEXT YEAR!

Inside this titanic, more than 700-page catalog, you will find the full range for all Games Workshop core games and many examples from our Specialist Games as well. Additionally, you will find a full-color, full-size picture of each model with all of its bits. Even better, we've wedged in loads of relevant hobby material into each section. You'll find things like step-by-step painting guides, conversion tips, Golden Demon winners, showcase armies from the top echelon of Grand Tournament players, terrain ideas, and more!

COMPLETE RANGES

The Catalog will contain the *complete* range for Warhammer 40,000, Warhammer, The Lord of The Rings, Battlefleet Gothic, and Inquisitor.

RANGE LISTINGS

For Mordheim, Warmaster, and Necromunda, the Catalog will contain a complete range listing with codes and prices accompanied by color pictures of as many models as we can possibly fit in.

WHERE CAN I GET THESE MODELS?

All models in the range – whether current, classic, archive, or bitz – will be available through your hobby supplier. Whether you purchase from a Rogue Trader Independent Retailer, a Games Workshop Hobby Center, GW Mail Order, or the GW online store, THE CATALOG lists the complete range, and EVERYONE (buying or selling) will be using this book as a reference.

HOBBY TIPS

Loads of hobby tips to help you paint, model, and convert your army.

PAINTING RUNES

Complete the highlighting and shading of the area where the rune will be positioned. Set the model aside to dry entirely.

Next, take a sharpened pencil (the mechanical ones work the best) and lightly draw out the design that you wish to paint. If you are working over a dark color, use a white charcoal pencil (these are available at most art supply or craft stores).

Paint over the pencil lines with thinned-down Chaos Black paint. Test the consistency of the paint before applying it to the model. If the paint is too thin, it will no longer be opaque. If it's too thick, it will make your design lumpy and obscure the detail. You can test the paint on an old model or bit of primed sprue if you like. When painting the design, make sure to cover the pencil lines completely with the paint.

Once the black paint dries, go back in with a bright opaque color and paint in the center of the Chaos Black lines. If you choose a color that is pretty transparent (like yellow), add a bit of Skull White to increase the color's opacity. When this coat dries, highlight the central line with a bit of pure Skull White. Save these tiny highlights for sharp corners or the tips of lines to make the design appear to have a bit more depth to it.

NAMES & CODES

Each boxed set, blister, model, and bit has its name and code listed in the catalog. The number of models included is also listed with each box and blister.

BITZ & SPRUES

If you want an Ogre's right arm, a multi-melta, or a metal shield, you can find them.

PRICES

There is an easy to read price list at the end of each section. (Not shown here.)

CLASSIC RANGE

Over more than 25 years of making Citadel Miniatures, GW has produced a number of excellent models that are no longer a part of the main range. These Classic models can be found at the end of each army section.

SIZE MATTERS

How big is The 2004 Complete Games Workshop Catalog & Reference Guide? "Well, in order to make it, we've gone through Graphic Designers like the Emperor goes through souls."
