

Chi-Town ISS Peacekeeper On Leave After Shooting

By Randall Kurian, Sentinel Staff Writer. Brought to us by Voice of Rights.

A Chi-Town ISS Peacekeeper was placed on paid administrative leave after he shot an official of the Chi-Town Medical Department who pulled a gun on him, officials said.

An ISS Office spokesman said that veteran Peacekeeper and ISS team member Michael Fitzpatrick, who was unharmed in the incident, seemed to have acted properly.

“All preliminary evidence indicates that this was a justified shooting”, said Sgt. Paul Hellis.

The incident happened around night as Fitzpatrick investigated a report on a disturbance on levels 22.

“We got a notice of a disturbance, going in and out of shops, trying to hit citizens,” Hellis said. “When the Peacekeeper arrived, the official took off running into a abandoned shop”

Fitzpatrick confronted the man, later identified as Dr. David Moffit, 39. Hellis said that Moffit refused to respond to the Peacekeeper and refused to take his hands out of his coat pockets when ordered to do so. Moffit's actions heightened Fitzpatrick's state of alert.

“There is a reason why that person is running from you”, he said. “Not only did Moffit run from the peacekeeper, but he was also trying to hide something in his pockets.

“(Fitzpatrick) can see that Moffit has something large in his coat and he asked several times to take his hands out of his

Armament Giants Cooperate Iron Heart and Golden Age Weapon smiths sign treaty.

By Kurian Randall, Sentinel Staff Writer. Brought to us by Voice of Rights.

CS Iron Heart Armaments and GAW of Alabama have formed an alliance to produce weapons, Directors of the two weapon organizations said last month.

The announcement is good news to Mercenary companies, who have speculated for months about the markets future.

“I am really happy to hear about this agreement,” said Red Stone City Administrator Toll Scholl. “Anything that will help them continue their services and be apart of the market is very important to us and I wish them luck.

“About the rumors that have been going around, my hope is everything settles down now and they have a great success. We need them and the market needs them badly.”

CS Iron Heart Arm. Chief Executive Officer Jonas Dylan said, “ The treaty with GAW allows Iron Heart to produce all

Free Quebec Withdraws From No Fly Zone

By Kurian Randall, Sentinel Staff Writer. Brought to us by Voice of Rights.

Free Quebec Air Guard will soon be leaving the No Fly Zone area just a month after establishing air superiority. The Free Quebec Air Guard branch of the military is now officially in the process of eliminating its presence in the area.

Free Quebec took over the No Fly Zone area two months ago, when CS Army Forces advanced towards Free Quebec borders. but it wasn't for another month before Free Quebec claimed air superiority over the Coalition States.

Now, another situation is underway. Soldiers were notified this month that Free Quebec is moving out of the “Canzone Point” area entirely. Glitter Boy and Violator Platoons have been ordered to make encampments in the Zones area till the Air Guard moves out.

Radio Free Quebec (RFQ) said homesteaders in the area should worry and relocate to a different place. Though the situation is far from bleak. RFQ said villages in the area are in grave danger of being destroyed by the encroaching Coalition Army.

Lazlo/Tolkeen-Roundup

Council mulls situation

Lazlo - Genocide or relocation? That is the daunting question facing the committee formed by Council of Learning. The Xiticix Task Force has been charged with the tough task of implementing a strategy against the Horde. To gather correct data, the Task Force is sending out a group to make contact with the nearest hive. The group will try to communicate with the Xiticix in hopes of stopping the impending clash.

Summoning deaths to be probed

Tolkeen – Tolkeen City Watch officers last month investigated a summoning accident that killed a veteran Summoner and his Dwarven apprentice who died when an unbound Demon Spider attacked them.

“It was like they were put through a meat grinder”, Psi-Doctor Rebus Hasid, Tolkeens acting Mystic Investigator said last month.

Siloam Lynxes, 137, and Cobia Ell, 60, of Free Hold, died of dismemberment injuries following their struggle with the Spider Demon.

The Tolkeen City Watch was looking into astrological conditions, implementation of the summoning circle and scroll of the Summoners to determine if oversight was involved.

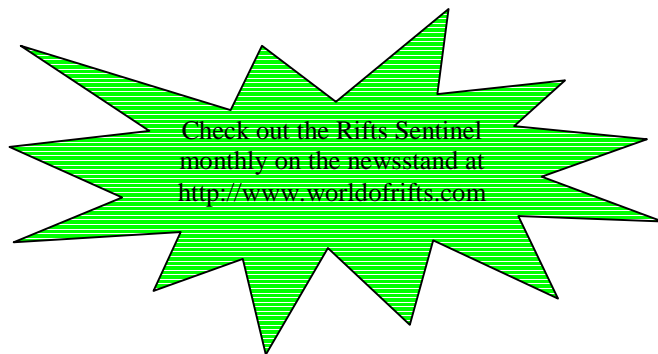

North America-Out & About

Skeletal raiders hit refugee camp following attacks on Mystic Knights

Wisconsin – Mystic Knight raiders assaulted Cyber-Knight posts last month in Easton refugee camp, killing a Cyber-Knight, in retaliation for ambush attacks that wounded 3 Mystic knights and 30 other allies.

More than 25 Rift Grenades exploded within seconds of each other, sending blue beams into the air over Easton. The Grenades slammed into two Cyber-Knight posts, one in the west and one in the east of the camp, the Cyber-Knights said.

Lasts months turmoil began when a refugee family were wounded in an assault near the Tolkeen border. The crazed knights attempted to slaughter the entire family.

Armor

of the Armaments tank line more cost effectively through the trade-processing agreement GAW has with Northern Gun in Manistique.

This provides us with the opportunity to focus our efforts on munitions generation by more fully utilizing our other assets and superb processing and production facilities.

Col. Desmond Coda, Commander of the Iron Heart Army Division, said the treaty may result in Iron Heart not calling back 100 secondary citizen employees, but some of the 2nd Class citizens may find opportunities in other areas of Iron heart Armaments.

Iron Heart said the produced tanks would continue to be stored, packed and shipped from its facilities in the capital.

“However, the other CS members will now have the benefit of reduced production costs and most will see a reduction in their shipping costs since their Tanks will be produced in Whykin, almost the center of our member states.

Diaries of the Siege

A traveling scholar on his way to Lazlo located this. He has presented it to us as a means to get the word out on the tragedy of the Siege. We will be printing excerpts for the continuation of the war. May all the gods bless us!

June 105 - June 30, 105

*Tuesday. We moved out early to within a few miles of Riv-
era and drew up in line for battle -- our advance moved on --
and the Platoon supported -- met little resistance in taking the
City -- Took 8 prisoners. Dismembered all of them.*

*The Platoon halted close to the City -- We got some eat-
ables -- The people were ecstatic to see our troops driving out
and following up the "D-Bee's." They did all in their power
for us -- The Tolkeenites had acted awful meanly -- Took eve-
rything like hats, boots, shoes, clothing, ammo, rifles & vehi-
cles -- The streets and fence corners were strewn with their
discarded old ones.*

*Some of them, yes many, were almost able to join in the
march, being so full of Necromantic energy -- Soon we were
called on to gather for pay -- still near town -- and at noon
took up the march near the river --*

*I never saw more pears, ripe and ripening, and better crops
then are to be seen hereabouts, except for Iowa -- Lieutenant
Belarus & I got a delicious dinner at Mr. Begums -- Randy
women about. Exultant on our arrival, and almost wor-
shipped us as their protectors-i.e. Our soldiers -- For the
night we picketed and laid ready -- I stood Post two hours --
Continued Next month.*

Shooting

pockets.”

At that point Moffit pulled a C5-Pump Pistol from his coat and pointed it at Fitzpatrick, according to Hellis.

Fitzpatrick took cover behind a table, drew his own weapon and fired twice. He hit Moffit once in the torso from about a patrol car's length away, said Hellis.

Inspectors found that Moffit's C-5 had a fully loaded magazine but it wasn't immediately known if a round was chambered or if Moffit fired at the Peacekeeper.

The Chi-Town Department of ISS is conducting the investigation.

Hellis said that General Thomas Lopez talked to Fitzpatrick after the incident.

“The General responded out here but Fitzpatrick is fine,” Hellis said.

Moffit was airlifted to the Medical Center where he was listed in critical condition.

Hellis said that Fitzpatrick was placed on administrative leave with pay pending the outcome of the investigation.

Free Quebec

But others familiar with the territory weren't as sure that people had anything to worry about. A former FQ Soldier said that the Coalition has made no showing in the said area and that this is likely a ploy by the FQ Government to remove undesirables from the area. For the time being the local villages are hiring Mercenary groups to help ward off any potential threats be the real or imaginary.

For Sale:

Vials of elder dragon spittle, fresh sources only. Varieties of species samples are available. Samples are of perfect magical experimentation quality. For a complete description of this and other esoteric products come to “Byron's Magic Shoppe” East-Central Kingsdale, 123 King Fisher Rd.

Oddities

Wanted: Minimum 2oz samples have Xiticix excrement or excretions for lab analysis. Pays 5000 Lazlo credits per 2oz sample. Please forward inquiries or samples to Dr. MacFiddus Jones, independent research council, West Lazlo protectorate.

Help Wanted: Wilderness guide required for an expedition into a, reputedly deserted, alien settlement in the Free Quebec region. Should be familiar with both Free Quebec legal codes, and dimensional lore. Groups welcome and encouraged to apply. Warning, familiarity with combat situations may be required. Contact the Free Quebec science council for further information and pay rates. No mutants or dimensional beings need apply.

Scholar and mercenary required: The Lazlo research collective is sponsoring an expedition to investigate rumors of a magical chalice. While rumors that this may be the Holy Grail referred to in ancient earth legend are being discounted, it is believed to be a powerful relic of some kind. The investigation was prompted by new information on the potential whereabouts of the relic. Apply to the Lazlo Research Collective for further information, and pay rates.

Wanted: Wolfen charged with the cold-blooded murder of Cyber-Knight Sir Seminar, and farmer Johnen Black.

Description: Height is approximately eight and one half feet, fur is Dark gray. Seen wearing black archaic Armour, and skull mask. Presumed a Mystic Knight. Consider armed and extremely dangerous.

Reward is 10 000 credits, dead or alive.

Known only as "Solstice".

Mercenaries Wanted! Escort mission from Fort Pent worth to the city of Hope. Approximate Distance is 1500 miles. Vehicles preferred, but not necessary. Bring adequate survival supplies. Violent interception is a probability. Pay Ranging from five thousand to ten thousand (Universal Credits or dry goods). For details, contact 'Johnny' at The Watering' Hole in Fort Pent worth.

Help Needed Heavy lifter needed for farm work and moving hay and helping with plowing. Anybody strong but especially one of those big D-bees or a Juicer or anything else big. Free room and food for as long as work is done. Off I-94, south of charity city

The JFL League Teams

El Paso Maulers with Boa Coleman (Delphi Juicer) as the main weapon.

Ciudad Juarez Juicers with Joe “Slammer” Mixxon (Titan Juicer) as their brick wall.

Fort El Dorado Stuart Rhinos with the Dynamite Trio (Normal Juicers) as their dizzying attack.

Los Alamo Assassins with the Blitzkriegs, an offense filled with Hyperion Juicers, as their way to a winning game.

Whykin Gunners with Dan “Normal” Lou (Crazy) as their secret weapon.

Newtown Devastators with the Big Stick (Titan Juicer with a bionic arm) as their ass stumper.

And a dozen more teams will make their debut this year as the fight starts for the JFL Championship. This years reward for winning is an Expert level Detox Coupon, \$300,000 worth of Bandito Arms equipment and a GAW Light APC.

Look forward to seeing more sports next month as we come into season. We will have articles on Dead ball, Muderthon, Wasters Demolitions and Free For All Crush.

J.F.L.

If you can't handle the action
Stay out of the game!

Tobias Magickal Aids & Predictions:

This Month we will focus on how the moon can add to our spell strength in many different ways.

Moon Magick Enhancement

New Moon Magick is from the day of the new moon to 3.5 days after. Used for:

- Starting new rituals
- Summoning Preparation
- Increasing PPE
- Balancing the Body
- Seeking Spells

Waxing Moon Magick is from 7 to 14 days after the new moon. Used for:

- Constructive magick such as Enchant Items
- Ridding one self of the Horror factor effect
- Charming Others
- Capturing Faeries, Specifically leprechauns

Full Moon Magick is from 14 to 17.5 days after the new moon. Used for:

- Prime time for spells for protection
- divination
- any working that needs extra power such Creating Golems

Waning Moon Magick is from 10.5 days to 14 days after the full moon. Used for:

- Banishing magick
- ridding oneself of addictions, illness, or negativity
