TASK FORCE NEWS

- ⊕ STARFIRE: New edition continues in development.
- ⊕ Task Force Games is currently on the lookout for artists to illustrate both SFB and non-SFB products in the future and invites interested parties to submit portfolios to Tim Olsen - the new TFG Product Development Manager. Tear sheets and photocopies only - do not send originals until you are asked to!

NEW SHIP FOR STAR FLEET BATTLES

(R2.953) FEDERATION HEAVY COMMAND CRUISER (CB): As with other races, the Federation sought improvements in its heavy cruiser design. The first of these improved Command Cruisers (*Gettysburg*) appeared in Y175. The new design provided a 20% increase in phaser firepower, a 100% increase in drone capability, a 25% increase in reserve power, and a 7.5% increase in warp power (resulting in a warp-capable saucer).

Explosion Strength: 20. Spare Shuttles 3. Docking 8.

F&E: Combat factor 9. Command Rating 9. Production cost 9. Replaces CA/CC as of Y175.

The ships were named for major battles in Earth history, with the general provision that no more than one battle be used from each war. Two battles were chosen from WWII as this was, effectively, two separate wars going on simultaneously. Names included: 1728-*Gettysburg*, 1729-*Kadesh*, 1730-*Thermoplae*, 1731-*Cannae*, 1732-*Alesia*, 1733-*Isandhlwana*, 1734-*Gravelotte*, 1735-*Tannenberg*, 1736-*Kursk*, 1737-*Coral Sea*, 1738-*Inchon*, 1739-*Khe Son*, 1740-*Golan*, 1741-*Alfeld*, 1742-*Austerlitz*, 1743-*Panjsher*, 1744-*Suomussalmi*, 1745-*Rocroi*, 1746-*Poltava*, 1747-*Roszbach*, 1748-*Gaugamela*, 1749-*Vincennes*, 1750-*Basra*.

ASK KOMMODORE KETRICK

Can fusion beams be held at WS-III? *No, they are not multi-turn arming weapons and can't be held at the start of a scenario.*

When you buy an MRS, can you buy extra T-bombs? Does loading make it a "special shuttle"? *The T-bombs carried by an MRS are taken from the ship's stores. They do not come free with the MRS and cannot be purchased for the MRS in excess of the ship's limits. An MRS loaded with mines counts under (S4.1) as a shuttle prepared for a special mission.*

ANNOUNCEMENTS

On a space-available basis, Starletter will announce events of interest to SFB players, including conventions, local tournaments, PBM campaigns, club meetings, special store events, etc. ADB and TFG make no warranty as to the quality, reliability, or reputation of any item announced. Send your announcements to Amarillo Design Bureau, PO Box 8759, Amarillo, TX 79114. Please get them in as early as possible.

Readers should include a stamped self-addressed envelope when requesting information from listed events.

➤ SANCTIONS: A "sanctioned" tournament uses the 1991 Tournament Book rules (available as a product in stores), with the current Tournament Update Sheet (available from TFG for a stamped self-addressed envelope), and must be at a publicized gaming event open to the public. Any tournament can be listed in Starletter, and its winners listed in Captain's Log; simply notify ADB with all information. To have the winner declared a "Rated Ace" you must: run a sanctioned tournament with at least 16 people, select the winner through at least three single-elimination rounds, and report the results on a Rated Ace Nomination Form (available from TFG for a stamped self-addressed envelope), which must be obtained in advance.

INSIDE THIS ISSUE:

SCENARIO: SP236 Pickett's Charge

NEW SHIP: Federation CB *Gettysburg*

FOR F&E: War Cruiser Drone Bombardment Ships.

(SP236.0) PICKETT'S CHARGE

(Y177)

by Douglas Brachman, California

During Y177, Lyran ships took over wider sectors of the Federation-Coalition front line as Klingon ships were redeployed for an offensive elsewhere. During one local counterattack, the Federation broke through the lines, exposing the Lyran logistical network to attack. Admiral Meade sent Captain George E Pickett in the heavy command cruiser *Gettysburg* to destroy a Lyran repair ship. The *Gettysburg* detected approaching Lyran forces as it roared into the attack, and Captain Pickett knew he would have only one pass at the freighter before he had to withdraw.

(SP236.1) NUMBER OF PLAYERS: 2; the Federation player and the Lyran player.

(SP236.2) INITIAL SET UP

TERRAIN: Small moon in hex 1010.

FEDERATION: CB *Gettysburg* in 4030, WS-III, heading F, speed max.

LYRAN: Repair Freighter in 1010, WS-I, heading B, speed 2.

DW *Slammer* in 2020, WS-I, heading B, speed 12.

FF *Strongjaw* in 1515, WS-I, heading B, speed 4.

(SP236.3) LENGTH OF SCENARIO: The scenario continues until all forces belonging to one side have been destroyed, captured, or have disengaged. The *Gettysburg* is considered destroyed if it has not disengaged by the end of turn 3.

(SP236.4) SPECIAL RULES

(SP236.41) MAP: Use a floating map.

(SP236.42) SHUTTLES AND PFs: No shuttles or PFs have warp booster packs.

(SP236.421) If using the optional MRS shuttles, the *Gettysburg* has one MRS.

(SP236.422) There are no fighters in this scenario. In a variant in which fighters are present, use the standard deployment patterns for EW fighters if desired.

(SP236.423) There are no PFs in this scenario.

(SP236.43) COMMANDER'S OPTION ITEMS

(SP236.431) Each ship can purchase additional or special equipment as Commander's Option Items (e.g. T-bombs, extra marines, etc.) up to 20% of its combat BPV. See (S3.2) for details and exceptions. Note that whatever is spent here counts in the Standard and Modified Victory Conditions (S2.2) as victory points for the enemy.

(SP236.432) All drones are "medium," speed-20.

Each drone-armed ship can purchase special drones up to the historical racial percentages as part of the Commander's Option Items. Note that (S3.2) allows drone ships extra points for this purpose.

(SP236.44) REFITS: Both Lyran ships have plus and ESG refits. The DW has a power pack.

(SP236.5) VICTORY CONDITIONS: Points are scored as follows:

Repair Freighter destroyed.....	5
Repair Freighter crippled, not destroyed.....	2
Repair Freighter has no internal damage.....	-1
Lyran warship crippled or destroyed.....	1
<i>Gettysburg</i> has internal damage.....	-1
<i>Gettysburg</i> is crippled.....	-3
<i>Gettysburg</i> is destroyed.....	-6
<i>Gettysburg</i> is captured.....	-10

Any positive score is a Federation victory. Points can be scored for a given ship in the scenario only once.

(SP236.6) VARIATIONS: The scenario can be played again under different conditions by making one or more of the following changes:

(SP236.61) Replace the Lyrans with a Romulan SkyHawk and SeaHawk.

(SP236.62) Replace the Lyrans with a Klingon F5C and a Klingon F5 or F5D.

(SP236.63) For a simpler scenario, delete the FF and replace the CB with an NCL.

(SP236.64) Bid for the Lyran force, with the low bidder playing the Lyran side and buying his forces with the number of points he bid. This could be done with Lyran or Klingon ships.

(SP236.65) Bid for the Federation mission, with the low bidder buying a single ship with the number of points he bid. This might be a Federation or Kzinti ship.

(SP236.7) BALANCE: The scenario can be balanced between players of different skill levels by one or more of the following:

(SP236.71) Change the CB to a BC or CC.

(SP236.72) Replace the DW with an MP or CW.

(SP236.73) Add one interceptor to the Lyran force.

(SP236.74) Add a P-refit to one or both Lyran ships.

(SP236.75) Adjust the weapons status of the Lyrans; higher weapons status will place more power in phaser and ESG capacitors, giving them more power for movement and EW at start.

(SP236.8) TACTICS

FEDERATION: You are starting at a distance of 30 hexes from your primary target, and you can expect him to gain four more hexes on you by running away. You can also expect him to use ECM and erratic maneuvers, but fortunately he does not have a lot of power for this.

The Lyran warships are, individually, not much of a problem. However, if they can mass their fires for one solid shot on one of your shields, or even worse manage an ESG ram, you can lose the whole battle by being unable to disengage. IT IS IMPERATIVE THAT YOU REALIZE THAT YOU HAVE TO DISENGAGE BY ACCELERATION. You do not have much chance of doing it by sublight with both Lyran warships still around, and if you have not wrecked them, they can move fast enough to keep you from separating by distance.

The upshot is that you must decide if you are going to use your photons for one shot on the primary target, or just blow one of the warships apart and run.

LYRAN: Try to pull your ships together to hit one shield on the Fed with all you have. If successful, moving at a high speed will prevent his escape and you will gain a complete victory.

(SP236.X) DESIGNER'S NOTES: As with so many scenarios, we started with a title. What possible mission could require a cruiser to "charge" toward the enemy and "break through" their lines? Obviously, to destroy a small, valuable, and not easily maneuvered unit.

FEDERATION & EMPIRE

KLINGON D5D, KZINTI MCD (data same for both): Combat 7(4), command rating 6. Build a maximum of one per turn until Y173, thereafter maximum of two per turn. Convert from war cruiser for 3 points is only means of building. No scout capability.

FEDERATION NVH: Combat 5-7, 9 fighter factors, scout capability. Build one each in Spring Y181 and Spring 182 as substitutions for NCLs; cost = 16. Thereafter one per Spring at the higher cost of 28 points. Escorts are one NAC and one FFE or DWA.

PLAYTEST REPORT FORMAT

We encourage all SFB players to submit reports on new ships and scenarios. *We can't print new products without playtest reports.* Anyone can playtest; your first assignment is in this very issue! For your report to be used, it must be typed or computer printed on 8.5x11 paper. Each rule, ship, and/or scenario report must be on a separate page. Put your name, address, and a list of playtesters on every page.

If you include a stamped self-addressed envelope, we'll send you another assignment, or we'll tell you what needs to be improved in your report before you can do another one. More assignments are available on GENie; you can report via Email.

All reports should be sent to Amarillo Design Bureau, Post Office Box 8759, Amarillo, TX 79114 (or to ADB\$ on GENie).

REPORTS ON SHIPS

1. List the Race, Class, and Project (900) number.
2. What mission is the ship intended for? Is it suitable? Why?
3. How many times did you test the ship in one-on-one duels?
What ships did you test it against? What were the results?
4. How many times did you test it in fleet battles? Describe the fleets and results. Did the ship perform its mission?
5. Are there any hidden flaws? Are power, speed, and systems adequate to the mission?
6. Is the ship recommended for publication?

REPORTS ON SCENARIOS

1. List the title and the SP number.
2. How many times did you play it? How many to completion?
We require at least two playings and prefer more.
3. Is the scenario unbalanced? If so, toward whom? How much?
4. Pick one: Fun, boring, one of the best, unworkable, average.
5. Is there a "trick key" that can unlock the scenario and cause it to fall apart? If so, describe it and how you solved it.
6. List any proposed changes, variants, or balance factors.
7. Assign Priority for publication: Immediately, soon, whenever, never, in a particular product.

REPORTS ON RULES

1. List the rule number and what product the rule is in.
2. Ask your questions about how it works or what it means.
3. List any conflicts with other rules.
4. Describe any changes in balance or tactics it causes.
5. List any typos or mistakes.
6. Indicate anything that should be added, deleted, or clarified.
