The long-awaited Star Fleet Universe Role-Playing Game reached the stores in mid-December. The 192-page \$20 manual covers everything you need to create characters and adventures for these elite Federation operatives! Prime Directive includes more background material for the Star Fleet Universe than has ever been published anywhere before!

A series of adventure modules for Prime Directive are under development; the first (Graduation Exercise) will ship soon.

## (SP221.0) KRIPNEY AT WAR

(Y167)

by Steve Cole & Steve Petrick, Texas

As tensions built up around the Neutral Zone planet Adanerg, the Klingons decided (early that year) to attempt to seize it with a minimum-force assault. The F5G commando frigate *Senior Sergeant Korl* was sent to eliminate the Federation colony. The Federation, detecting the attack and wanting to respond with a similar force, sent the commando frigate *Kripney*.

**(SP221.1) NUMBER OF PLAYERS:** 2; the Federation player and the Klingon player.

### (SP221.2) INITIAL SET UP

**TERRAIN:** Class M planet in hex 2215. There is a small Agro station on the planet, on hex sides A.

**FEDERATION:** CFF in 4210, heading E, speed max, WS-III.

**KLINGON:** F5G in 1914, heading B, speed 20, WS-III.

**(SP221.3) LENGTH OF SCENARIO:** The scenario continues until all forces (including ground units) belonging to one side have been destroyed, captured, or have disengaged. If two complete turns (starting at Impulse #1, and after Turn #6) pass without any casualties at the GCL, the scenario is over.

### (SP221.4) SPECIAL RULES

**(SP221.41) MAP:** The map is fixed; it does not float. Any unit leaving the map has disengaged and cannot return.

The Federation units can only disengage from the xx01 and 42xx map edges. The Klingon units can only disengage from the xx30 and 01xx map edges. Units which disengage in unauthorized directions or areas are considered destroyed.

**(SP221.42) SHUTTLES AND PFs:** No shuttles have warp booster packs.

**(SP221.421)** No ship in this scenario is qualified to carry an MRS shuttle, but in a variant of the scenario where that is possible, they may be purchased [up to the limits in (J8.5)] under (SP221.431).

**(SP221.422)** There are no fighters in this scenario. In a variant in which fighters are present, use the standard deployment patterns (one EWF for each squadron of eight or more fighters) for EW fighters if desired.

**(SP221.423)** There are no PFs in this scenario.

### (SP221.43) COMMANDER'S OPTION ITEMS

**(SP221.431)** Each ship can purchase additional or special equipment as Commander's Option Items (e.g., T-bombs, extra marines, etc.) up to 20% of its Combat BPV. See (S3.2) for details and exceptions.

**(SP221.432)** All drones are "medium," i.e., speed-20.

Each drone-armed ship can purchase special drones up to the historical racial percentages as part of the Commander's Option Items. Note that (S3.2) allows drone ships extra points for this purpose.

**(SP221.44) REFITS:** The Klingon F5G has the B-refit. The Federation CFF has the Plus-refit.

**(SP221.45) PLANET:** There is only one Ground Combat Location (where the Agro station is). Any troops landed elsewhere are ignored for all purposes. The GCL has three control stations but no defense systems. The Agro station has no transporter artillery.

**(SP221.5) VICTORY CONDITIONS:** The only basis to determine victory in this scenario is possession of the GCL. The player controlling the GCL when the scenario ends wins. If both players control one (or two) control stations at the end of the scenario, it is considered a draw.

**(SP221.6) VARIATIONS:** The scenario can be played again under different conditions by making one or more of the following changes:

**(SP221.61)** You can replace the commando ships with ships from any two opposing races.

**(SP221.62)** Replace one commando ship with a standard frigate of the same hull type. It will have fewer Marines but will have the upper hand in space combat.

**(SP221.63)** Replace BOTH commando frigates with standard frigates of the same hull types. In this case, the limit on militia units formed (D15.831) is ignored, but ships cannot reduce themselves below a minimum crew. The limit on the rate of formation of militia squads is not changed.

**(SP221.64)** For a larger battle, add a standard frigate of the same hull type to each side. Alternatively, add a police ship to each side.

**(SP221.65)** For more Marines, replace the commando frigates with commando war cruisers.

**(SP221.66)** Give both ships Prime Teams.

**(SP221.7) BALANCE:** The scenario can be balanced between players of different skill levels by one or more of the following:

**(SP221.71)** Add extra ground troops to the Federation Agro station, or delete the boarding parties already there.

**(SP221.72)** Replace one of the GAS shuttles on one ship with an Admin shuttle.

**(SP221.73)** Delete or add option points to one ship.

**(SP221.74)** Give one ship a Prime Team.

**(SP221.8) TACTICS:** The Federation should reinforce his garrison, then use drones to distract Klingon firepower while wrecking the F5G with phaser-1s. The Klingons should land as many troops as possible and try to keep the Federation away from the planet so that he cannot reinforce it. Use transporter artillery if you have the chance.
